Accent Modification Manual By Singular:

Accent Modification Manual Harold T. Edwards, Kathy Harris Strattman, 1996 The Accent Modification Manual helps students use their cognitive and problem solving abilities to examine the key elements of the intonation system of American English how it is organized and more importantly how it works in communication The strategies in this text provide the framework for the life long process of modifying an accent This text is an especially creative way of engaging learners in the process and eliciting ownership of and a commitment to their own personalized improvement plan [Here's How to Do Accent Modification](#) Robert McKinney, 2019-03-15 Here s How to Do Accent Modification A Manual for Speech Language Pathologists is designed for speech language pathologists SLPs working with clients on accent modification in American English A growing number of non native speakers are interested in improving their communication skills and SLPs need preparation to work with this clientele The text provides copious advice and many diverse techniques for teaching accent modification from the level of basic sounds to the level of discourse The text emphasizes realistic goal setting so that clients focus on becoming effective communicators as opposed to sounding exactly like native speakers The objective is a balance between clear and natural speech Many SLPs favor intelligibility over naturalness because of their backgrounds working with speech delayed children but with non native speakers this often leads to unnatural speech and listeners focus on how something is said as opposed to what is said Here s How to Do Accent Modification is uniquely geared toward the skills and backgrounds of SLPs working with clients in a one on one setting but is also an excellent introductory text for any English as a Second Language ESL teacher Robert McKinney brings this unique perspective as a speech language pathologist with degrees in both Communication Disorders and Teaching English as a Second Language Also included with the text are numerous practical activities and worksheets for working with clients The ebook includes audio files and video clips to demonstrate working with non native speakers

Transforming Voice and Communication with Transgender and Gender-Diverse People Adrienne B. Hancock, Linda L. Siegfriedt, 2019-10-10 Transforming Voice and Communication with Transgender and Gender Diverse People An Evidence Based Process is written for speech language pathologists and voice teachers to guide transgender and gender diverse people through communication transformations It follows a chronological progression from preparations through techniques acknowledging all gender presentations throughout the text A client centered process is emphasized through case examples illustrating each step The first section Start Smart begins with a chapter about developing and monitoring the provider s self awareness because a mindful provider is crucial for the safety and success of the process Information about the populations is provided next to develop the provider s cultural humility and sensitivity This section closes with practical considerations for working with marginalized populations and ways to mitigate barriers to their accessing care Service delivery models for five types of settings are described by practicing speech language pathologists who developed successful programs The second section Press On guides the provider through the best practice

standards for gender related voice and communication services Procedures and provided forms are tailored to the circumstances and needs of the client and extend the assessment beyond basic vocal function Three chapters dedicated to the phases of intervention highlight the importance of taking time to establish a collaborative and informed evidence based plan and prepare the client s body and mind before launching into direct voice work Stimuli lists photographs and figures are provided to assist the client s practice The final section Finish Strong offers several real case examples of navigating the more unique challenges in this process Five essays about communication transformation written by gender diverse people end the book on an inspirational note Clients who wish to transform their voice and communication navigate physical mental and emotional work This text is a guide for speech language pathologists and voice teachers to inform and facilitate transformation Throughout the book real examples from the authors and colleagues demonstrate how this work can be done well with informed thoughtful planning
