National Human Development Report. Poland 2012. Regional and Local Development Piotr Arak, Andrey Ivanov, Mihail Peleah, Adam Płoszaj, Kamil Rakocy, Jakub Rok, Kamil Wyszowski, 2013-01-01 World Economic Issues at the United Nations Mahfuzur Rahman, 2012-12-06 What were all those diplomats and bureaucrats from all over the world doing at the United Nations over the past half century when they were not debating how to prevent countries from tearing at each other or how to feed and shelter victims of natural or man made disasters around the globe A lot in fact at least in terms of time spent and the sweep of issues debated A major category of them were discussing a whole range of economic questions since the inception of the organization while a slightly different category with some members only changing hats were talking about social issues Apart from operational activities such as technical assistance to developing countries and except for the well publicized attempts at activism at as those on the environment or the status of international conferences such women little is known outside the United Nations about the work of the organization in economic and social fields Which is a pity After all the organization has often been given the dubious distinction of being the biggest talk show on earth It is certainly pertinent to ask what it has been talking about over the last fifty odd years **UN Ideas That Changed the World** Richard Jolly, Louis Emmerij, Thomas G. Weiss, 2009-09-01 Ideas and concepts have been a driving force in human progress and they may be the most important legacy of the United Nations UN ideas have set past present and future international agendas in many global economic and social arenas and have also led to initiatives and actions that have improved the quality of human life This capstone volume draws upon findings of the other 14 books in the acclaimed United Nations Intellectual History Project Series The authors not only assess the development and implementation of UN ideas regarding sustainable economic development and human security but also apply lessons learned to suggest ways in which the United Nations can play a fuller role in confronting the challenges of human survival with dignity in the 21st century *Textbook of International Health: Global Health in a Dynamic World* , 2009-04-06 This classic text formerly known as the Basch textbook now completely revised in an updated new edition brings together information that students and professionals working in the wide variety of disciplines concerned with international health will find in no other single source It synthesizes historical cultural environmental economic and political considerations to provide a comprehensive global overview of the many factors that determine the health of individuals and populations The major determinants of health status in all regions of the world are discussed and interventions undertaken at community national and international levels are described The new edition features a renowned new authorship committed to updating and expanding the entire content while retaining the core elements of Basch's excellent text **A Development Economist in the United Nations** Richard Jolly, 2022-11-22 This book explores the joys and occasional frustrations of a development economist working for the United Nations From 1982 to 2000 Richard Jolly worked in senior positions in UNICEF and UNDP on assignments that were innovative for the UN the

countries concerned and for development The book analyses his experiences as Deputy Director of UNICEF Principal Coordinator and co author of UNDP s widely acclaimed Human Development Report and a community development officer in Kenya as well as his involvement in the UN and country mission to Zambia and ILO employment missions to Colombia Sri Lanka and Kenya It shows what the UN can achieve when there is strong leadership at central and field levels together with decentralized approaches Jolly s experiences lead him to conclude there are in fact three UNs the formal UN of governments the second UN comprising UN staff members often the source of initiatives and action and the third UN of NGOs experts consultants and others closely following the UN or working with it and also often bringing new thinking and innovation Reflecting on the need for international action to be more effective and the UN to be more strongly supported this volume is a fascinating guide to students and scholars of global governance development and international organizations and those working for them

Flat World, Big Gaps United Nations,2007-03 This publication sets out an empirical analysis of the impact of economic liberalisation and globalisation on inequality poverty and development including recent trends in economic growth income distribution and global inequalities and the comparative experiences of countries that have pursued different economic policies
