Sovereign Debt Restructurings in Belize Mr.Tamon Asonuma,Gerardo Peraza,Kristine Vitola,Mr.Takahiro Tsuda,2014-07-22 This paper examines the causes processes and outcomes of the two Belize sovereign debt restructurings in 2006 07 and in 2012 13 that occurred outside of an IMF supported program It finds that the motivation for the two debt restructurings differed as the former was driven by external liquidity concerns while the latter was motivated by a substantial increase in the coupon rates and future fiscal solvency concerns Despite differential treatment between residents and non residents both 2006 07 and 2012 13 debt exchanges were executed through collaborative engagement due in part to the existence of a broad based creditor committee and the authorities effective communication strategy However while providing temporary liquidity relief neither of the debt restructurings properly addressed long term debt sustainability concerns Going forward the success of the 2012 13 debt restructuring will still depend on the country s ability to strengthen fiscal efforts and public debt management framework **Commerce, Justice, Science, and Related Agencies Appropriations for 2016: Department of Commerce; National Oceanic and**
