The impact of shocks on gender-differentiated asset dynamics in Bangladesh Rakib, Muntaha, Matz, Julia Anna, 2014-06-27 Assets are an important means of coping with adverse events in developing countries but the role of gendered ownership is not yet fully understood This paper investigates changes in assets owned by the household head his spouse or jointly by both of them in response to shocks in rural agricultural households in Bangladesh with the help of detailed household survey panel data Land is owned mostly by men who are wealthier than their spouses with respect to almost all types of assets but relative ownership varies by type of asset Controlling for unobserved heterogeneity across households and looking at changes within rather than between households we find that weather shocks such as cyclones adversely affect the asset holdings of household heads in general while predicted external events lead to assets of both spouses being drawn down The results furthermore suggest that jointly owned assets are not sold in response to shocks either due to these assets being actively protected or due to the difficulty of agreeing on this coping strategy and that women s asset holdings and associated coping strategies are shaped by their lower involvement in agriculture

successes in practice such as the Zapatistas in Mexico and Rojava in Syria They have been a key influence on movements from Occupy in United States to the landless in Latin America to anti austerity struggles in Europe and Asia to urban movements in Africa Their lineages include anarchism syndicalism autonomist Marxism philosophers like Alain Badiou and radical popular praxis This path breaking volume recovers this understanding of social transformation long side lined but now resurgent like a seed in the soil that keeps breaking through and growing It provides case studies with reference to South Africa and Zimbabwe and includes a dossier of key texts from a century of anarchists syndicalists insurgent unionists and anti apartheid activists in South Africa Originating in an African summit of radical academics struggle veterans and social movements the book includes a preface from John Holloway The chapters in this book were originally published as a special issue in the Journal of Contemporary African Studies with the addition of a new dossier on the history and voices of a century of politics at a distance from the state in South Africa

How China is Reshaping the Global Economy Rhys Jenkins, 2022-06-16 China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites They also point to negative socio economic political and environmental consequences How China is Reshaping the Global Economy Development Impacts in Africa and Latin America throws more light on these controversies through a comparative study of China's impact on the two regions It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from North America and Western Europe to Asia This book looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing commodity markets the international presence of Chinese companies and financial flows It examines the different forms of Chinese economic involvement in Sub Saharan Africa and Latin America the main drivers and economic social political and environmental consequences It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China Since the first edition of How China is Reshaping the Global Economy Development Impacts in Africa and Latin America China's role in the global economy has continued to expand and the Chinese government's foreign policy has become more assertive The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China as well as increased Western concerns over the activities of major Chinese companies such as Huawei This new edition documents these changes and their implications for SSA and LAC

Illicit Financial Flows from South Africa Serges Djoyou Kamga, 2021-09-21 This book examines the detrimental impact of illicit financial flows on South Africa's development political economy and transformation in the 21st century Over the years illicit financial flows

have led to the systematic looting and channelling away of South African resources yet they are rarely studied by researchers looking to explain the country's underdevelopment and political economy. This book looks across sectors showing that illicit financial flows cut across all the key pillars of development, frustrating the betterment of people's lives in South Africa. Investigating the problem from a decolonial perspective, the book delves deep into the catastrophic impacts of illicit financial flows for people and the economy, discusses how the problem is being combatted, and ultimately suggests solutions for rebuilding social trust between people and the state. Making an important contribution to the decolonial debate as well as to discussions of South Africa's political economy, this book will be of interest to researchers across African studies, global development, political science, law, and corruption studies.
