These programs have redefined teaching practices and thrust diversity into the spotlight as a central concern. During this paradigm shift, the need to cater to diverse students has become paramount, particularly in monolingual European contexts where bilingual and plurilingual instruction is often perceived as a formidable challenge, especially for learners with special needs. *Inclusive Education in Bilingual and Plurilingual Programs* assembles a compendium of international theoretical and practical contributions, shedding light on the intricate interplay between diversity and bilingual or plurilingual education. This book delves into the multifaceted realm of attention to diversity in education, where the focus is on tailoring teaching methods to the specific needs of students, encompassing differences in abilities, learning paces, and styles, which empowers students to acquire essential competencies and attain educational objectives at each stage of their academic journey. Secondly, it traverses the landscape of bilingual and plurilingual education, which has emerged in response to the societal employment and economic demands for language proficiency beyond one's mother tongue. This book is essential reading for many educational stakeholders engaged in bilingual or plurilingual education.
