Akhenaten Dominic Montserrat,2014-05-01 The pharaoh Akhenaten who ruled Egypt in the mid fourteenth century BCE has been the subject of more speculation than any other character in Egyptian history This provocative new biography examines both the real Akhenaten and the myths that have been created around him It scrutinises the history of the pharaoh and his reign which has been continually written in Eurocentric terms inapplicable to ancient Egypt and the archaeology of Akhenaten's capital city Amarna It goes on to explore the pharaoh's extraordinary cultural afterlife and the way he has been invoked to validate everything from psychoanalysis to racial equality to Fascism

Ancient Perspectives on Egypt Roger Matthews,Cornelia Roemer,2016-09-16 The allure of Egypt is not exclusive to the modern world Egypt also held a fascination and attraction for people of the past In this book academics from a wide range of

disciplines assess the significance of Egypt within the settings of its past The chronological span is from later prehistory through to the earliest literate eras of interaction with Mesopotamia and the Levant the Aegean Greece and Rome Ancient Perspectives on Egypt includes both archaeological and documented evidence which ranges from the earliest writing attested in Egypt and Mesopotamia in the late fourth millennium BC to graffiti from Abydos that demonstrate pilgrimages from all over the Mediterranean world to the views of Roman poets on the nature of Egypt This book presents for the first time in a single volume a multi faceted but coherent collection of images of Egypt from and of the past **Teaching Global History**

Alan J. Singer,2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions

Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it *Socrates and the*

Jews Miriam Leonard,2012-05-01 What has Athens to do with Jerusalem Asked by the early Christian Tertullian the question was vigorously debated in the nineteenth century While classics dominated the intellectual life of Europe Christianity still prevailed and conflicts raged between the religious and the secular Taking on the question of how the glories of the classical world could be reconciled with the Bible *Socrates and the Jews* explains how Judaism played a vital role in defining modern philhellenism Exploring the tension between Hebraism and Hellenism Miriam Leonard gracefully probes the philosophical tradition behind the development of classical philology and considers how the conflict became a preoccupation for the leading thinkers of modernity including Matthew Arnold Moses Mendelssohn Kant Marx Nietzsche and Freud For each she shows how the contrast between classical and biblical traditions is central to writings about rationalism political subjectivity and progress Illustrating how the encounter between Athens and Jerusalem became a lightning rod for intellectual concerns this book is a sophisticated addition to the history of ideas **Fragile Hierarchies**

Laurens Tacoma,2017-07-31 *Fragile Hierarchies* deals with the world of the urban elites of third century Roman Egypt It discusses economic social and demographic aspects of the position of the elites of the small towns that dotted the Nile The work combines analysis of Greek papyri with modelling techniques used in ancient history The first part of the book analyses patterns of urbanisation property relations and their consequences for elite formation The second part discusses demographic aspects patterns of inheritance

and their consequences for continuity and discontinuity The central argument of the book is that a strong social and economic hierarchy occurred side by side with a dynamic pattern of elite renewal
