of feminism and socialism as it has played out in the socialist movements arising in Europe and North America in the nineteenth through early twenty first centuries From well known figures in the history of socialism such as Rosa Luxemburg Sylvia Pankhurst and Angela Davis to lesser known individuals including Claudia Jones Sheila Rowbotham and Zillah Eisenstein this book examines the socialist feminists who have been among the most powerful voices insisting on freedom of expression and participatory democracy within the socialist movement as well as within the larger society It considers how these figures contributed to what has become a twenty first century multiracial grassroots socialist feminist movement led by young women of color playing a major role in radical movements across the globe The Evolution of Socialist Feminism from Eleanor Marx to AOC is an important text for undergraduate students of politics sociology and gender studies as well as for the general reader

Evaluating Counterterrorism Performance Beatrice de Graaf, 2011-03-15 This book offers a new model for measuring the success and impact of counterterrorism strategies using four comparative historical case studies The effectiveness of counterterrorism measures is hard to assess especially since the social impact of terrorist attacks is a fundamental and complex issue This book focuses on the impact of counterterrorist measures by introducing the concept of the performative power of counterterrorism the extent to which governments mobilize public and political support thereby sometimes even unwittingly assisting terrorists in creating social drama The concept is applied to counterterrorism in the Netherlands Italy the Federal Republic of Germany and the United States in the 1970s Based on in depth case study research using new primary sources and interviews with counterterrorist officials and radicals a correlation is established between a low level of performative power and a decline of terrorist incidents This is explored in terms of the link between social drama as enhanced by counterterrorist measures and ongoing radicalization processes This book demonstrates that an increase in visible and intrusive counterterrorist measures does not automatically lead to a more effective form of counterterrorism In the open democracies of the west not transforming counterterrorism into a performance of power and repression is at least as important as counterterrorism measures themselves This book will be of much interest to students of terrorism and counter terrorism discourse analysis media and communication studies conflict studies and IR Security Studies in general

Lebron,2023 A condensed and accessible intellectual history that traces the genesis of the ideas that have built into the BlackLivesMatter movement in a bid to help us make sense of the emotions demands and arguments of present day activists and public thinkers Started in the wake of George Zimmerman s 2013 acquittal in the death of Trayvon Martin the BlackLivesMatter movement has become a powerful and incendiary campaign demanding redress for the brutal and unjustified treatment of black bodies by law enforcement in the United States The movement is only a few years old but as Christopher J Lebron argues in this book the sentiment behind it is not the plea and demand that Black Lives Matter comes out of a much older and richer tradition arguing for the equal dignity and not just equal rights of black people In this updated edition The Making of Black Lives Matter presents a condensed and accessible intellectual history of the BlackLivesMatter movement and expands on the movement s relevancy This edition includes a new introduction that explores how the movement s core ideas have been challenged re affirmed and re imagined during the white nationalism of the Trump years as well as a new chapter that examines the ideas and importance of Angela Davis and

Amiri Baraka as significant participants in the Black Power Movement and Black Arts Movement respectively Drawing on the work of these revolutionary black public intellectuals as well as Frederick Douglass Ida B Wells Langston Hughes Zora Neal Hurston Anna Julia Cooper Audre Lorde James Baldwin and Martin Luther King Jr Lebron clarifies what it means to assert that Black Lives Matter when faced with contemporary instances of anti black law enforcement He also illuminates the crucial difference between the problem signaled by the social media hashtag and how we think that we ought to address the problem As Lebron states police body cameras or even the exhortation for civil rights mean nothing in the absence of equality and dignity To upset dominant practices of abuse oppression and disregard we must reach instead for radical sensibility Radical sensibility requires that we become cognizant of the history of black thought and activism in order to make sense of the emotions demands and argument of present day activists and public thinkers Only in this way can we truly embrace and pursue the idea of racial progress in America [Encyclopedia of African American Society](#) Gerald D.

charisma in America From the Puritans and Andrew Jackson to Black nationalists and Donald Trump the saga of American charisma Worthen argues stars figures who possess a dangerous and alluring power to move crowds They invite followers into a cosmic drama where hopes are fulfilled and grievances are put right and these charismatic leaders insist that they alone plot the way The story of charisma in America reveals that when traditional religious institutions fail to deliver on their promise of a meaningful life people will get their spiritual needs met in a warped cultural and political landscape dominated by those who appear to have the power to bring order and meaning out of chaos Charismatic leaders address spiritual needs offering an alternate reality where people have knowledge power and heroic status whether as divinely chosen instruments of God or those who will restore national glory Through Worthen s centuries spanning historical research Spellbound places a crucial religious lens on the cultural economic and political upheavals facing Americans today
