Animals and the Limits of Postmodernism Gary Steiner, 2013-04-16 In Animals

and the Limits of Postmodernism Gary Steiner illuminates postmodernism's inability to produce viable ethical and political principles Ethics requires notions of self agency and value that are not available to postmodernists Thus much of what is published under the rubric of postmodernist theory lacks a proper basis for a systematic engagement with ethics Steiner demonstrates this through a provocative critique of postmodernist approaches to the moral status of animals set against the background of a broader indictment of postmodernism's failure to establish clear principles for action He revisits the ideas of Derrida Foucault Nietzsche and Heidegger together with recent work by their American interpreters and shows that the basic terms of postmodern thought are incompatible with definitive claims about the moral status of animals as well as humans Steiner also identifies the failures of liberal humanist thought in regards to this same moral dilemma and he encourages a rethinking of humanist ideas in a way that avoids the anthropocentric limitations of traditional humanist thought Drawing on the achievements of the Stoics and Kant he builds on his earlier ideas of cosmic holism and non anthropocentric cosmopolitanism to arrive at a more concrete foundation for animal rights
