Popular Photography ,1995-03 **Social Software and Web 2.0 Technology Trends** Deans, P. Candace,2008-11-30 This book provides an overview of current Web 2.0 technologies and their impact on organizations and educational institutions Provided by publisher **Framing Portraits, Binding Albums** Shilpi Goswami,Suryanandini Narain, (eds.),2025-01-06 Long neglected in academic discourse in India family photographs make a silent contribution to the histories of photography marginality and the family In this volume the writers dwell on the importance of family photographs and their visual omnipresence in our daily lives They point out how family photographs have belonged to the vernacular material of visual culture more seen and lived with less written and consciously thought about Attempting to retrieve family photographs from a space of neglect this volume demonstrates how they are fundamental to the microhistories of a nation and its many societies and suggests the importance of such counterarguments to the dominant strains in an emerging discursive space The essays do not offer a comprehensive survey of all types of family photographs in India Instead they present focused insights into chosen areas of interest on the part of the writers Collectively they embrace the intersectionalities of gender caste class and regional trajectories making the politics of representation even more layered with contestations between the historical oral and affective memorialisation surrounding family archives and photographs These concerns centrally inform the essays as they accept and negotiate a terrain shared by all types of narrativisation

Computer Vision Richard Szeliski,2022-01-03 *Computer Vision Algorithms and Applications* explores the variety of techniques used to analyze and interpret images It also describes challenging real world applications where vision is being successfully used both in specialized applications such as image search and autonomous navigation as well as for fun consumer level tasks that students can apply to their own personal photos and videos More than just a source of recipes this exceptionally authoritative and comprehensive textbook reference takes a scientific approach to the formulation of computer vision problems These problems are then analyzed using the latest classical and deep learning models and solved using rigorous engineering principles Topics and features Structured to support active curricula and project oriented courses with tips in the Introduction for using the book in a variety of customized courses Incorporates totally new material on deep

learning and applications such as mobile computational photography autonomous navigation and augmented reality Presents exercises at the end of each chapter with a heavy emphasis on testing algorithms and containing numerous suggestions for small mid term projects Includes 1 500 new citations and 200 new figures that cover the tremendous developments from the last decade Provides additional material and more detailed mathematical topics in the Appendices which cover linear algebra numerical techniques estimation theory datasets and software Suitable for an upper level undergraduate or graduate level course in computer science or engineering this textbook focuses on basic techniques that work under real world conditions and encourages students to push their creative boundaries Its design and exposition also make it eminently suitable as a unique reference to the fundamental techniques and current research literature in computer vision

Modern Trends in Applied Terrestrial Ecology R.S. Ambasht, Navin K. Ambasht, 2012-12-06 Ecology and economics have Greek roots in oikos for household logos for study and nomics for management Thus ecology and economics should have complemented one another for a proper growth and development without destruction but unfortunately rapid industrialization lure for fast financial gains and commercialization activities have led to a widespread surge in pollution load environmental degradation habitat destruction rapid loss of biodiversity sudden rise in rate of extinction of many wildlife and wild relatives of domesticated animals and cultivated cereals and other plants global climate changes creating global rise in temperature and CO levels and increased ultraviolet B at ground 2 level Although these threats to human health have led us to look to ecology for their solutions and guidance for sustainable development without destruction the industrial and technology houses are looking for alternative methods of development and resource use methods The two global conferences of the United Nations in 1972 and 1992 and international programs of Man and the Biosphere MAB International Biological Program IBP International Geosphere Biosphere program IGBP and World Conservation Union IUCN of different commissions United Nations Environmental Program UNEP efforts Ramsar Conventions for wetlands and World Wide fund for Nature WWF for nature in general and wildlife in particular have focused attention of ecologists naturalists governments and Non governmental organizations NGOs toward better conservation
