key economic indicators play on an airport's financial performance. As rapidly changing dynamics including liberalization, commercialization, and globalization are changing the nature of airports worldwide, this book presents the significant challenges facing current and future airports. Airports are evolving from quasi-monopolies to commercial companies operating in a global environment with ever-increasing passenger and cargo volumes and escalating security costs that put a greater strain on airport systems. This book highlights the critical changes that airports are experiencing, providing a basic understanding of both the economic and financial aspects of the air transport industry.

Fundamentals of Instrumental and Choral Conducting Selim Giray, Michael Hanawalt, 2025-05-20. Providing a thorough introduction to both choral and instrumental conducting, this textbook offers a complete package of teaching, study, and assessment materials to support a single semester foundational conducting course. The book is designed to address the needs of students and instructors in mixed-discipline classrooms, giving equal weight to the conducting skills and repertoire of instrumental and choral ensembles. The 22 chapters are intended to fit comfortably into a single semester course with two weekly classes. The authors cover key topics including conducting body alignment, breathing, the conducting box, baton use, cutoffs, left hand use, conducting patterns, conducting styles, conducting subdivisions, accents, syncopation, score preparation and score reading, transpositions, and clef reading. Ensemble familiarity, error detection, rehearsal planning, and rehearsal techniques are also covered. This textbook and its accompanying supplemental materials are uniquely designed for the instructor to achieve an efficient and readily organized class and for the students to receive essential fundamental conducting skills on both instrumental, including orchestral and band instruments, and choral ensembles. Addressing the conductor's role, basic conducting skills, makeup of instrumental and choral ensembles, and solutions to common issues, the text prepares all students to engage in higher-level conducting courses.

A Musicology of Performance Dorottya Fabian, 2015-08-17. This book examines the nature of musical performance. In it, Dorottya Fabian explores the contributions and limitations of some of these approaches to performance, be they theoretical, cultural, historical, perceptual, or analytical. Through a detailed investigation of recent recordings of J.S. Bach's Six Sonatas and Partitas for Solo Violin, she demonstrates that music performance functions as a complex dynamical system. Only by crossing disciplinary boundaries, therefore, can we put the aural experience into words. *A Musicology of Performance* provides a model for such a method by adopting Deleuzian concepts and various empirical and interdisciplinary procedures. Fabian provides a case study in the repertoire while presenting new insights into the state of baroque performance practice at the turn of the twenty-first century. Through its wealth of audio examples, tables, and graphs, the book offers both a sensory and a scholarly account of musical performance. These interactive elements map the connections between historically informed and mainstream performance styles, considering them in relation to broader cultural trends, violin schools, and individual artistic trajectories. *A Musicology of Performance* is a must-read for academics and postgraduate students and an essential reference point for the study of music performance, the early music movement, and Bach's opus.

Routledge Handbook of Ecotourism David A. Fennell,2021-09-21 This handbook presents a timely broad ranging and provocative overview of the essential nature of ecotourism The chapters will both advance the existing central themes of ecotourism and provide challenging and divergent observations that will thrust ecotourism into new areas of research policy and practice The volume is arranged around four key themes sustainability ethics and identity change conflict and consumption and environment and learning with a total of 28 chapters The first section focuses on sustainability as a core ecotourism criterion with a primary focus on some of the macro sustainability issues that have an impact on ecotourism Foremost among these topics is the linkage to the UN s Sustainable Development Goals which have relevance to

ecotourism as one of the greenest or most responsible forms of tourism The chapters in the second section provide a range of different topics that pull ecotourism research into new directions including a chapter on enriching indigenous ecotourism through culturally sensitive universalism The third section includes chapters on topics ranging from persons with disabilities as a neglected body of research in ecotourism to ecotourism as a form of luxury consumption The final section emphasises the link between ecotourism and learning about the natural world including a deeply theoretical chapter on rewilding Europe With contributions from authors around the world this handbook gives a global platform to local voices in both developed and emerging country contexts The multidisciplinary and international Routledge Handbook of Ecotourism will be of great interest to researchers students and practitioners working in tourism and sustainability

Roots Of Religious Extremism, The: Understanding The Salafi Doctrine Of Al-wala' Wal Bara' Mohamed Bin Ali,2015-09-14 One of the issues in contemporary Islamic thought which has attracted considerable attention amongst Muslim scholars and within the Muslim community is the valid and appropriate attitude of Muslims to relationships with non Muslims A major source of confusion and controversy with regards to this relationship comes from the allegation that Muslims must reserve their love and loyalty for fellow Muslims and reject and declare war on the rest of humanity most acutely seen through the Islamic concept of Al Wala wal Bara WB translated as Loyalty and Disavowal which appears to be central in the ideology of modern Salafism This book investigates the dynamics and complexities of the concept of WB within modern Salafism and aims to understand the diverse interpretation of this concept and how modern Salafis understand and apply the concept in contemporary religious social and political settings The book discovers that the complexities diversities and disputes surrounding the concept in modern Salafism often revolve around issues of social political and current realities The significance of this book lies in the fact that comprehending modern Salafis conception of WB its realities and complexities has become an urgent priority in the lives of Muslims today

Italy 1636 Gregory Hanlon,2016-01-08 Italy 1636 is one of the most closely researched and detailed books on the operation of early modern armies anywhere and is explicitly inspired by neo Darwinian thinking Taking the French and Savoyard invasion of

Spanish Lombardy in 1636 as its specific example it begins with the recruitment of the soldiers the care and feeding of the armies and their horses the impact of the invasion on civilians in the path of their advance and the manner in which generals conducted their campaign in response to the information at their disposal The next section describes the unfolding of the long and stubborn battle of Tornavento where Spanish German and Italian soldiers stormed the French in their entrenchments detailing the tactics of both the infantry and the cavalry and re evaluating the effectiveness of Spanish methods in the 1630s The account focuses on the motivations of soldiers to fight and how they reacted to the stress of combat Gregory Hanlon arrives at surprising conclusions on the conditions under which they were ready to kill their adversaries and when they were content to intimidate them into retiring The volume concludes by examining the penchant for looting of the soldiery in the aftermath of battle the methods of treating wounded soldiers in the Milan hospital the horrific consequences of hygienic breakdown in the French camp and the strategic failure of the invasion in the aftermath of battle This in turn underscores the surprising resilience of Spanish policies and Spanish arms in Europe In describing with painstaking detail the invasion of 1636 Hanlon explores the universal features of human behaviour and psychology as they relate to violence and war
