Amazing Science Tricks Easy To Do:

47 Easy-to-Do Classic Science Experiments Eugene F. Provenzo, Asterie Baker Provenzo, 2012-07-31 Here is a highly motivating book for grade school students that will introduce them to many of the world's most popular and historically significant scientific experiments They'll learn about gravity simply by following the acrobatic antics of an ordinary coin By trying to blow an egg out of a cup they'll discover the principles of air pressure Dancing soap bubbles will help them understand the effects of static electricity and by dropping quarters into a full glass of water without causing it to overflow they'll study the effects of surface tension These and over 40 other experiments have been carefully selected by noted educators Eugene and Asterie Baker Provenzo to familiarize children with classic science experiments involving optics inertia air pressure magnetism sound topology light density vibration prisms elasticity gases vacuum perspective geometry centrifugal force buoyancy color and much more Some experiments such as the optical Newton's Rings are hundreds of years old Still others like the straw lever test are based on Greek experiments with leverage and the center of gravity first carried out thousands of years ago Easy to follow instructions and illustrations show youngsters how to perform each experiment most of which are prefaced with historical background a list of necessary materials and an explanation of key terms Almost all experiments can be carried out with common household items tissue paper scissors tapes rubber balloons pens pencils etc and can be worked at home or in the classroom to demonstrate specific scientific principles or to supplement a science curriculum unit Sources for all historical illustrations given in the text are listed at the end of the book [Amazing Science Experiments](#) E. Richard Churchill, 2005 The remarkable activities in this no sweat science guide will help you take a closer look at how our lives are affected by everything from light and heat to air and wind **73 Cool Science Tricks to Wow Your Friends!** Anna Claybourne, 2020-12-15 Discover the mind bending super weird science that they don't teach in school Young readers will love this awesome collection of science tricks including incredible optical illusions cool experiments sneaky hacks hilarious pranks and awesome magic using objects from around the home Written by award winning science writer Anna Claybourne this brain boosting book uses principles from biology chemistry and physics and supports STEM learning with a fun twist Readers will learn to Create the world's most slippery slime with a secret recipe Draw a 3 D picture that will mess with their mind Make an instant soap monster in the microwave Presented in a neat format with rounded corners colour illustrations and a glossary of key scientific terms this book is perfect for readers aged 8 **365 Weird & Wonderful Science Experiments** Elizabeth Snoke Harris, 2017-11-07 This fact and fun filled book contains hundreds of simple kid tested science experiments all of which can be done with items from around the house and require little to no supervision Each experiment features safety precautions materials needed step by step instructions with illustrations fun facts and further explorations Full color **More Magic Science Tricks** Dinah L.
