professionals popular culture and archival materials and an ethnographic study of internet use by people with disabilities Ellcessor reveals the assumptions that undergird contemporary technologies and participatory cultures Restricted Access makes the crucial point that if digital media open up opportunities for individuals to create and participate but that technology only facilitates the participation of those who are already privileged then its progressive potential remains unrealized Engagingly written with powerful examples Ellcessor demonstrates the importance of alternate uses marginalized voices and invisible innovations in the context of disability identities to push us to rethink digital media accessibility *Type Matters* Christopher Scott Wyatt,Danielle Nicole DeVoss,2017-09-01 Pending *The Novel as Network* Tim Lanzendörfer,Corinna Norrick-Rühl,2020-09-23 The Novel as Network Forms Ideas Commodities engages with the contemporary Anglophone novel and its derivatives and by products such as graphic novels comics podcasts and Quality TV This collection investigates the meaning of the novel in the larger system of contemporary media production and post print culture viewing the novel through the lens of actor network theory as a node in the novel network Chapters underscore the deep interconnection between all the aspects of the novel between the novel as a literary form as an idea and as a commodity Bringing together experts from American British and Postcolonial Studies as well as Book Publishing and Media Studies this collection offers a new vantage point to view the novel in its multifaceted expressions today **Design Thinking** Michael G. The Moral Case for Profit Maximization Robert White, 2020-04-01 The Moral Case for Profit Maximization argues that profit maximization is moral when businessmen seek to maximize profit by creating goods or services that are of objective value Traditionally profit maximization has been defended on economic grounds Profit economists argue incentivizes businessmen to produce goods and services In this view businessmen do not need to be virtuous as long as they deliver the goods It challenges the traditional defense of profit maximization arguing that profit maximization is morally ambitious because it requires businessmen to form normative abstractions and to cultivate a virtuous character In so doing the author also challenges the moral basis of corporate social responsibility Proponents of CSR argue that businessmen can do good while doing well This book argues that businessmen already do good by maximizing profit drawing upon the histories of the wheel the refrigerator and the shipping container as well as the biographies of J P Morgan John D Rockefeller and Thomas Edison to demonstrate the role of values in the creation of material goods and the role of the virtues in value creation The author challenges readers to rethink the relationship between profit value and virtue
