

Study Guide for AMC MCQ

AMC MCQ exam has a high failure rate. However, it can be argued that, most candidates do not fail due to lack of medical knowledge. Failure is caused as a result of one or several of the following:

- Poor time management (not finishing due to time running out)
- Not reading/understanding the question properly (if you don't have the correct information to start how can you choose a correct answer?)
- Not knowing how to navigate through the answers (getting confused with your options)
- Thinking at too high a level (it is an undergraduate exam, if you think like a GP or Specialist you will never find the answer you are looking for)
- Not understanding Australian medical and social culture (Australia does not deal with many of the serious things that are experienced in other countries, therefore things that may not be so serious in your country may be quite serious in Australia. For example, if a young child has whooping cough. In your country you are likely to treat them and send them home with follow up. In Australia this is considered so serious that you would hospitalise them.)

So this guide is not about increasing your medical knowledge. Getting medical textbooks and reading through them for hours taking notes will NOT help you pass this exam.

Here are tried and tested successful study techniques for the above problems. There is one ebook I recommend you purchase, *Mastering Multiple Choice* (I am not the author and do not receive any commission from your purchase) all other resources I recommend should be found free online.

Poor time management

An effective technique to combat this is called cycling. It may seem strange at first but once you master this it will take you less time to answer the questions and you will always end up finishing ahead of time. How to use cycling can be found on Page 44 of '*Mastering Multiple Choice*' <http://masteringmultiplechoice.com/> This is explained and should be initially practiced on a paper exam. Once you feel comfortable with the process of cycling email me at emma.liggins@yahoo.com and I will explain how to transfer this technique to the computer exam (AMC CAT MCQ exam). After you have been studying for some time make sure you also go on to the AMC website and pay to try their online mock exam. It is the same questions as in the *AMC Handbook of Multiple Choice Questions* so it won't be new study material but it is important that you know how to use the CAT exam and are comfortable with it when you really sit the exam. You don't want to waste important time during your 3 hours learning to use it.

Not reading/understanding the question properly

This is a common problem. There are two techniques to overcome this. The first is you have to acknowledge the importance of the non-medical. Each question in the exam has taken hours of labour by several examiners to write before being tested and reviewed by other examiners and then tried in the AMC MCQ exam (30 non scored pilot questions) EVERY SINGLE WORD IN THE QUESTION IS IMPORTANT. So if the question mentions things like clothes or patient's concerns or similar non-medical information DO NOT ignore this as it could be the clue to the answer. And of course this also applies to the annoying words like NOT and EXCEPT that always catch the attention. In nature the solution
