American Education Joel Spring 16th Edition:

American Education Joel Spring, 2015-08-14 Joel Spring's *American Education* introduces readers to the historical political social and legal foundations of education and to the profession of teaching in the United States. In his signature straightforward and concise approach to describing complex issues, Spring illuminates events and topics that are often overlooked or whitewashed, giving students the opportunity to engage in critical thinking about education. In this edition, he looks closely at the global context of education in the U.S. Featuring current information and challenging perspectives with scholarship that is often cited as a primary source, students will come away from this clear authoritative text informed on the latest topics, issues, and data, and with a strong knowledge of the forces shaping the American educational system. Changes in the 17th Edition include new and updated material and statistics on economic theories related to skills education and employability, the conflict between a skills approach and cultural diversity, political differences regarding education among the Republican, Democratic, Libertarian, and Green parties, social mobility and equality of opportunity as related to schooling, global migration, and student diversity in U.S. schools, charter schools, and home schooling.

Economization of Education

Joel Spring, 2015-03-27 In this timely, cogent analysis of trends and powerful forces shaping global educational policy today, Joel Spring focuses on how economization is making economic growth and increased productivity the main goals of schools, and the ways these goals are achieved, including measuring educational policies by their costs and economic benefits, shaping family life to ensure productive workers, and high-achieving students, introducing entrepreneurship education into curricula from preschool through higher education, and increasing the involvement of economists in educational policy analysis. Close attention is given to the Organization for Economic Cooperation and Development (OECD), the World Bank, the World Economic Forum, and multinational corporations, which as advocates of economization, want schools to focus on teaching hard and soft skills needed by the global labor market. Economization raises questions about the effects of economically driven agendas for schools: Will education policies advocated by global organizations and multinational businesses corporatize and standardize human personalities and families? What type of global worker is being sought by global organizations and multinational corporations? What education programs are supported to educate the ideal global worker? What is the ideal family life for economic growth and development? Detailing and analyzing the politics and motivations driving economization, the book concludes with an assessment of the impacts of the confluence of business interests, economic theories, governments, and educators.

Citizenship Education around the World John Petrovic, Aaron Kuntz, 2014-04-24 Though certainly not a new idea, citizenship education manifests in unique and often unpredictable ways in our contemporary neoliberal era. The question of what it means to be a productive and recognized citizen must now be understood simultaneously along both global and local lines. This edited volume offers an international perspective on citizenship education enacted in specific socio-political contexts. Each chapter includes a pointed conceptualization of citizenship education, a philosophical framework that is then

applied to specific national cases across Europe Asia Canada and more Chapters emphasize how such frameworks are implemented within local contexts encouraging particular pedagogical curricular practices even as they constrain others Chapters conclude with suggestions for productive change and how educators might usefully engage contemporary contexts through citizenship education

Dysconscious Racism, Afrocentric Praxis, and Education for Human Freedom: Through the Years I Keep on Toiling Joyce E. King, 2015-04-10 A dynamic leader and visionary teacher scholar Joyce E King has made important contributions to the knowledge base on preparing teachers for diversity culturally connected teaching and learning and inclusive transformative leadership for change often in creative partnership with communities Dr King is internationally recognized for her innovative interdisciplinary scholarship teaching practice and leadership Her concept of dysconscious racism continues to influence research and practice in education and sociology in the U S and in other countries This volume weaves together ten of her most influential writings and four invited reflections from prominent scholars on the major themes the work addresses In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and or practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field

Corporatism, Social Control, and Cultural Domination in Education Joel H. Spring, 2012 Starting with the 1972 publication of his seminal work Education and the Rise of the Corporate State Joel Spring has been documenting and analyzing the politics of knowledge and education Throughout his work he has explored the attempts to use education to advance the economic and political interests of dominant groups The general term he uses for the relationship between schools and power is ideological management His scholarly work first looked at the influence on American schooling of business and economic doctrines embodied in human capital theories and consumerism The next step in his exploration of the politics of knowledge was to examine these issues in the context of globalization leading to a proposed educational rights amendment to national constitutions and a new paradigm for education both of which might ensure that schools are protected from ideological management by economic and political elites Spring s indigenous background has strongly shaped his interest in the political and economic goals of schooling particularly the attempts of those in power to use schools to destroy indigenous languages and cultures In this collection Spring brings together 10 of his key writings providing an overview not just of his own career but the larger contexts in which it is situated In the Introduction he reviews the evolution and scope of his work and his earlier arguments and reflects on its central themes which are reflected in the writings selected for this volume In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to

follow the themes and strands of their work and see their contribution to the development of a field as well as the development of the field itself Contributors to the series include Michael Apple James A Banks Stephen J Ball Elliot Eisner Howard Gardner John Gilbert Ivor F Goodson Peter Jarvis

Race, Ethnicity and Education David Scott,2003-12-01 Insecure Prosperity Ewa Morawska,2021-04-13 This captivating story of the Jewish community in Johnstown Pennsylvania reveals a pattern of adaptation to American life surprisingly different from that followed by Jewish immigrants to metropolitan areas Although four fifths of Jewish immigrants did settle in major cities another fifth created small town communities like the one described here by Ewa Morawska Rather than climbing up the mainstream education and occupational success ladder the Jewish Johnstownners created in the local economy a tightly knit ethnic entrepreneurial niche and pursued within it their main life goals achieving a satisfactory standard of living against the recurrent slumps in local mills and coal mines and enjoying the company of their fellow congregants Rather than secularizing and diversifying their communal life as did Jewish immigrants to larger cities they devoted their energies to creating and maintaining an inclusive multipurpose religious congregation Morawska begins

with an extensive examination of Jewish life in the Eastern European regions from which most of Johnstown's immigrants came tracing features of culture and social relations that they brought with them to America After detailing the process by which migration from Eastern Europe occurred Morawska takes up the social organization of Johnstown the place of Jews in that social order the transformation of Jewish social life in the city and relations between Jews and non Jews The resulting work will appeal simultaneously to students of American history of American social life of immigration and of Jewish experience as well as to the general reader interested in any of these topics
