

SET-1

Q.P. Code 2/1/1

Roll No

Candidates must write the
Q.P. Code on the title page of
the answer-book.

NOTE

- (I) Please check that this question paper contains 15 printed pages.
- (II) Please check that this question paper contains 11 questions.
- (III) Q.P. Code given on the right hand side of the question paper should be written on the title page of the answer-book by the candidate.
- (IV) Please write down the Serial Number of the question in the answer-book before attempting it.
- (V) 15 minute time has been allotted to read this question paper. The question paper will be distributed at 10.15 a.m. From 10.15 a.m. to 10.30 a.m., the candidates will read the question paper only and will not write any answer on the answer-book during this period.

ENGLISH

(Language and Literature)

Time allowed : 3 hoursMaximum Marks : 80

General Instructions :

Read the instructions very carefully and strictly follow them :

- (i) This question paper comprises 11 questions. All questions are compulsory.
- (ii) The question paper contains **THREE** sections –
- Section – A : Reading Skills
- Section – B : Grammar and Creative Writing Skills
- Section – C : Literature Text Book
- (iii) Attempt questions based on specific instructions for each part.

Answer On Literature Paper 3 2014

S Ben Porath

Answer On Literature Paper 3 2014:

Marketing and Smart Technologies José Luís Reis, Marc K. Peter, Luís Paulo Reis, Zorica Bogdanovic, 2025-03-12 This book includes selected papers presented at the International Conference on Marketing and Technologies ICMaTech 2023 held at Faculty of Economics and Management FEM Czech University of Life Sciences Prague CZU in partnership with University College Prague UCP in Prague Czech Republic between 30 November and 2 December 2023 It covers up to date cutting edge research on artificial intelligence applied in marketing virtual and augmented reality in marketing business intelligence databases and marketing data mining and big data marketing data science web marketing e commerce and v commerce social media and networking geomarketing and IoT marketing automation and inbound marketing machine learning applied to marketing customer data management and CRM and neuromarketing technologies Innovative Solutions for Sustainable Supply Chains Hassan Qudrat-Ullah, 2018-08-28 This book presents the latest tools techniques and solutions that decision makers use to overcome the challenges faced by their sustainable supply chains Given the ever increasing significance of socio economic and environmental factors the management of sustainable supply chains has become a complex and dynamic task Multiple and conflicting objectives of stakeholders including suppliers manufacturers service providers and retailers add to the complexity of decisions that modern day managers of supply chains face With the unprecedented technological developments and innovations at hand sustainability can be maximized for all the activities of a supply chain including service concept and product design material sourcing and procurement manufacturing processes delivery of the final product and end of life management of the product Consequently the sustainable supply chains problems require a systematic and integrated approach Modeling and simulation in general as well as system dynamics and agent based modeling in particular have the capabilities to deal with the complexity of sustainable supply chain related problems This book will appeal to professionals and researchers in the field The Supporting Role of Logistics during the Early Stage of Retail Internationalisation Linnea Haag, 2019-03-08 Retail internationalisation refers to the establishment of retailers into foreign sales markets and is an important success factor for many retail chains Logistics has been acknowledged as an important prerequisite and key component of retail internationalisation enabling physical distribution to new foreign markets as well as ensuring customer satisfaction in terms of on time delivery and product availability Despite the recognition of logistics logistics managers struggle to adapt their logistics organisation and operations in order to efficiently and effectively support retail internationalisation due to the complexity of operating in multiple markets Previous research seldom mentions how logistics supports retail internationalisation especially when retail chains are at the beginning of their retail internationalisation journey By exploring the supporting role of logistics during the early stage of retail internationalisation retailers can better understand how logistics organisation and operations can be organised in order to successfully expand into foreign sales markets Therefore the purpose of this licentiate thesis is to Explore the supporting role

of logistics during the early stage of retail internationalisation This licentiate thesis is based on an abductive multiple case study approach that combines empirical data with literature in an iterative process in order to explore the supporting role of logistics during the early stage of retail internationalisation The selected case companies were three large sized Swedish retail chains that have recently established themselves into nearby foreign sales markets The findings of this licentiate thesis suggest that logistics plays both a reactive and a proactive supporting role during the early stage of retail internationalisation The reactive supporting role refers to logistics that adapts to predetermined conditions set by the retail company s top management team As a reactive supporter the logistics organisation is typically involved at an operational level and scales up its logistics operations in order to supply multiple markets Beyond its reactive role logistics can also play a proactive supporting role This refers to its involvement at a strategic level within the retail company where it can influence the conditions of retail internationalisation When logistics is involved more proactively its operations can become better aligned with the other company operations involved in retail internationalisation Furthermore proactive logistics support enables more efficient and effective logistics that can better cope with increased complexity as well as more effectively keeping track of logistics costs In addition to these findings the importance of top management has been identified as a key aspect of proactive logistics support More specifically logistics competence within the top management team enables logistics to be prioritised at a strategic level and to be better integrated during retail internationalisation including during individual establishments into new markets The findings also suggest that the importance of logistics increases over time during retail internationalisation The more markets the retailer enters the more important efficient logistics becomes in order to deal with both complexity and logistics costs By involving proactive logistics from the start of retail internationalisation retail chains can more efficiently and effectively establish into and operate within foreign sales markets which in turn supports a sustainable retail internationalisation One of the main academic contributions of this licentiate thesis has been to study logistics in the specific context of retail internationalisation which has previously not been researched in any great detail In addition logistics has often been studied as a static aspect but in this thesis it is studied from a dynamic perspective in order to understand how its supporting role changes over time during the early stage of retail internationalisation Another important contribution is that the role of logistics has been studied from both a strategic and an operational level as previous research has mostly focused on the strategic level of logistics related to retail internationalisation In terms of practical contributions this licentiate thesis clarifies the logistics characteristics and supply chain capabilities that support the early stage of retail internationalisation This licentiate thesis can also help practitioners to better prepare their logistics organisation and logistics operations for a future retail internationalisation as well as helping them to avoid making logistical mistakes during the early stage of retail internationalisation

ECSM2014-Proceedings of the European Conference on Social Media Asher Rospigliosi,Sue Greener, **2024-25 NTA UGC-NET/JRF English**

Solved Papers YCT Expert Team, 2024 25 NTA UGC NET JRF English Solved Papers 496 995 E This book contains the previous year solved papers from 2012 to 2024 *2025-26 NTA/UGC-NET/JRF English Solved Papers* YCT Expert Team , 2025 26 NTA UGC NET JRF English Solved Papers 528 995 E This book contains the previous year solved papers from 2012 to 2025 Exploring Third-Party Logistics and Partnering in Construction Andreas Ekeskär, 2016-06-01 The construction industry is associated with problems such as low productivity and high costs This has been highlighted in several government funded reports in both Sweden and in the UK during the course of over two decades The construction industry is a large industry sector employing hundreds of thousands and a large contributor to a country s GDP The problems therefore have a large impact on society Some of the problems are rooted in the organizational structure of the construction industry Compared to other manufacturing industries the construction industry is organized in temporary organizations The temporary organizations cause temporary supply chains fragmentation among construction industry actors and adversarial relationships between those actors Partnering has been put forward as a solution to overcome the temporariness and the adversarial relationships in the construction Another solution to mitigate the problems suggested in the reports is supply chain management SCM Both concepts have been taken from the manufacturing industries and partnering has been more successful compared to SCM in the construction industry In the construction industry the progress towards SCM has focused on logistics In recent years dedicated third party logistics TPL solutions have emerged in the Swedish construction industry where a company is hired to manage the logistics in a construction project The purpose with the research presented in this licentiate thesis is to explore how client initiated TPL solutions and partnering can be facilitators for SCM in the construction industry Being a new phenomenon in the construction industry TPL solutions provide a logistical competence not necessarily included in a traditional construction project Therefore TPL solutions are of particular interest when studying the realization of SCM in the construction industry In the process of realizing SCM in the construction industry the construction clients have been put forward as having a crucial and important role The clients are the initiator and funder of construction projects and as such the client can influence the course of a construction project Therefore it is of interest to study how the client can take an active role in this process Initiating a TPL solution in a construction project is one way for a client to take an active part in the realization of SCM in construction However in order to study how clients can take an active role towards the realization of SCM in the construction industry there have to be an understanding of how SCM is to be adopted to the construction industry context SCM that derives from the manufacturing industry is designed to be used in long term relationships with permanent organizational structures The construction industry on the other hand is associated with short term relationships and a temporary organizational structure Partnering that is designed to mitigate the temporariness and establish long term relationships have been quite successful in the construction industry and could therefore be used as a facilitator for SCM in construction To study the use of client initiated TPL solutions in construction and the realization of SCM in the construction

industry the following research questions have been addressed RQ1 To what extent can a third party logistics solution be a facilitator for client driven SCM in the construction industry RQ2 How will upstream and downstream tiers be affected when a thirdparty logistics provider is used in a construction project RQ3 How can partnering be used a mean to facilitate the realization of SCM in the construction industry To answer the research questions two main methodologies have been used case study for the empirically grounded research and conceptual studies for the analysis of the case studies as well as for comparing the two concepts of partnering and SCM All questions have been grounded in literature and previous research The findings of this research is therefore grounded in both theory and in practice The main findings of this research is that TPL solutions are not a quick fix for realizing SCM in the construction industry However if used right a TPL solution can be an effective tool to address logistical issues in a construction project and to establish an interface between the supply chain and the construction site By initiating a TPL solution the client addresses the importance of logistical competence in a construction project A TPL solution does not have a purpose of its own a TPL solution is a service function to the construction project providing expertise on logistics management There are also a number of driving forces and concerns that have been identified if they are addressed prior to a TPL solution is implemented the likelihood of its success will increase Furthermore both partnering and SCM rely on high trust and share several key components and issues that have to be addressed Partnering on strategic level with several suppliers included can even be hard to distinguish from SCM Wherefore partnering is considered a facilitator for the realization of SCM in construction By addressing the necessary issues in both concepts a good foundation for SCM is established

Intensive Care Medicine MCQs Shoneen Abbas,Ruth Herod,Daniel Horner,2015-04-01 Intensive care medicine is a dynamic and evolving specialty requiring its practitioners to be part physician physiologist and anaesthetist This requires a firm foundation of knowledge and an ability to apply this to the clinical situation This book contains 270 multiple choice questions allowing self assessment of the breadth of knowledge required of the modern intensivist The book is divided into three papers each consisting of 60 multiple true false MTF and 30 single best answer SBA questions covering areas including resuscitation diagnosis disease management organ support and ethical and legal aspects of practice The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine while the SBA questions test the ability of the candidate to prioritise compete options and make the best decision for the patient Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty This book will appeal to intensive care physicians approaching professional examinations worldwide including the European Diploma American Board and Faculty of Intensive Care Medicine examinations In addition it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development and to physicians sitting professional examinations in

related specialties requiring knowledge of intensive care medicine such as general medicine general surgery and anaesthesia This new book will complement the existing international best selling title Multiple Choice Questions in Intensive Care Medicine ISBN 978 1 903378 64 9 also written by Dr Steve Benington NTA UGC NET Paper 1 - 34 Solved Papers (2019 to 2004) 3rd Edition Disha Experts,2020-01-04 **iCEER2014-McMaster Digest** Mohamed Bakr,Ahmed Elsharabasy,2014-11-18 International Conference on Engineering Education and Research *CeDEM15* Parycek, Peter ,Edelmann, Noella,2015 *Solutions to Water Crises (Related to Actual Interventions)* Jenia Mukherjee,Saket Pande,Melissa Haeffner,Sara Marks,Pieter van Oel,Matthew R. Sanderson,Adriana Allen,2024-01-26 This Research Topic is a part of the Delft 2021 1st Sociohydrology Conference series To view the other sessions please follow the links below Innovating a New Knowledge Base for Water Justice Studies Hydrosocial Sociohydrology and Beyond Scale Issues in Human Water Systems Water Resources and Human Behavior Analysis and Modeling of Coupled Water Human Systems Feedbacks and Coevolution Innovative Sensing Observing Measuring and Analysing Human Water Data Pluralistic water research integrates the hydrological and the social to provide sustainable solutions to water crises While relying upon robust quantitative modelling sociohydrology captures crises across many waters surface ground and interstitial along quantity and quality dimensions hydrosocial unfurls power hierarchies in access to safe and required quota of water be it for drinking or irrigation purposes The success of engineering solutions laying out hard interventions such as solar powered irrigation dams high yielding crop varieties water treatment plants and water distributions and purifications depend on soft socio political cultural and psychological variables like the political landscape community behaviours and governance arrangements How these soft parameters limit or advance the effect of hard interventions await more enhanced modelling and place based qualitative analyses to disentangle various cause effect pathways While historical and process based sociohydrology accommodates detailed temporal datasets and causal relationships across human water systems the hydrosocial paradigm reconciles non modern anti hegemonic water techniques and knowledge systems animating local agencies within specific hydrosapes This issue is dedicated to capture real time innovations through which water challenges have been confronted It intends to unravel storylines along actionable water projects reflecting on mediations across multiple actors and networks in specific spatio temporal and cultural contexts finally drawing our attention to the correlation between projected promises and actual realities Situated at the crossroads of boundary work we invite articles that will deploy a range of interdisciplinary frameworks like RANAS Risk Attitude Norms Ability and Self regulation APIE Awareness Participation Involvement and Engagement HUPE Historical Urban Political Ecology etc to demonstrate coupled sociohydrological and hydrosocial realities and in turn getting informed by empirical insights emanating from these actual water interventions The final aim of the special issue is not to showcase water just actual interventions but to elicit a rigorous mapping of sustainable processes facilitating collective co production of resilient water trajectories **Introducing the IB Diploma Programme** Marc

Abrioux, Jill Rutherford, 2013-02-14 Schools wishing to introduce the IB diploma programme are faced with major investment in terms of time effort and money in order to become authorised This manual is a resource for schools already offering the diploma as well as for prospective diploma schools

The Routledge Handbook of Disaster Response and Recovery

Bimal Kanti Paul, Luke Juran, 2025-03-25 The Routledge Handbook of Disaster Response and Recovery covers the two post disaster stages of the disaster cycle and presents an extensive and cutting edge overview of their many considerations Organized into two parts Response and Recovery this handbook details the history theories methods debates and emerging issues in the stages of response and recovery Using a transdisciplinary approach the myriad topics examined in this handbook include search and rescue myths related to disaster response technological methods for response recovery among vulnerable populations and the intersection of disasters and mental health Contributors discuss these issues both globally as well as country and disaster specific This book is an essential guide and reference not only for scholars engaged in disaster research but also for undergraduate and graduate students policy makers disaster managers international and supranational agencies and humanitarian and volunteer organizations engaged in disaster management

ICAS2014-International Conference on Analytics Driven Solutions Eduardo Rodriguez, Department of Leisure Studies Greg Richards, Greg Richards, 2014-09-10

Evidence-Based Practice for Public Health Emergency Preparedness and Response National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Board on Health Sciences Policy, Committee on Evidence-Based Practices for Public Health Emergency Preparedness and Response, 2020-11-28 When communities face complex public health emergencies state local tribal and territorial public health agencies must make difficult decisions regarding how to effectively respond The public health emergency preparedness and response PHEPR system with its multifaceted mission to prevent protect against quickly respond to and recover from public health emergencies is inherently complex and encompasses policies organizations and programs Since the events of September 11 2001 the United States has invested billions of dollars and immeasurable amounts of human capital to develop and enhance public health emergency preparedness and infrastructure to respond to a wide range of public health threats including infectious diseases natural disasters and chemical biological radiological and nuclear events Despite the investments in research and the growing body of empirical literature on a range of preparedness and response capabilities and functions there has been no national level comprehensive review and grading of evidence for public health emergency preparedness and response practices comparable to those utilized in medicine and other public health fields Evidence Based Practice for Public Health Emergency Preparedness and Response reviews the state of the evidence on PHEPR practices and the improvements necessary to move the field forward and to strengthen the PHEPR system This publication evaluates PHEPR evidence to understand the balance of benefits and harms of PHEPR practices with a focus on four main areas of PHEPR engagement with and training of community based partners to improve the outcomes of

at risk populations after public health emergencies activation of a public health emergency operations center communication of public health alerts and guidance to technical audiences during a public health emergency and implementation of quarantine to reduce the spread of contagious illness
