Standing Outside on the Inside Olga M. Welch, Carolyn R. Hodges, 1997-01-01 The Other Side of Teaching Evelyn
Uddin-Khan, 2015-03-13 The substandard education most American students receive isn't the fault of teachers As longtime
educator Evelyn A Uddin Khan points out few parents and politicians know what actually goes on behind the closed doors of
public schools Most teachers operate under exploitative conditions overseen by school administrators corrupt with power
Unlike past eras where students once brought apples to their teachers most teachers can count on students to be bored and
irresponsible and to make spurious claims to their rights when their asocial behavior is challenged in a classroom setting She
shows how education standards have eroded amidst an atmosphere where grades are inflated curricula are diluted and
ignorance is mass produced She shows how the once powerful teachers unions have become little more than voting machines
how segregation is alive in NYC and how a death threat is taken in stride Many of the incidents and anecdotes are real life
stories where the names of the participants have been changed in order to protect their identities Her informative
challenging book is an attempt to set the record straight on the reputation of public school teachers who she feels have been
unfairly maligned in the press and in current political debates The Sunday School Spirit Stephen Rexroat, 1979 An
