

Writing an FRQ for AP Psychology

According to the College Board's published materials on the AP Psychology free-response questions, you are expected to do the following:

- Describe an overarching framework.
- Be specific in both of your references to and discussion of psychological principles or problems.
- Cite evidence and examples to illustrate your explanations.
- Clearly state intent of your evidence (to support or contrast a claim) ➡ State your points clearly and directly.

WHAT?

Let's translate:

- **Write an introductory sentence that is not a repeat of the questions (but not required).** It's just helpful if you translate it for yourself.
- **Use psychology terms and proper names of theories, theorists, etc.**
- **Define all terms.**
- **Support everything with an example of a study, preferably from your course work (not an example from your own personal life)**
- **Clearly state the purpose of the example or study (support or contrast)**
- **Be clear, concise, and direct- no fluff.**

*****This is not an AP English or History essay. There are a few things that make it different:***

- *You do not write in the 5-paragraph essay format.*
- *You do not have an introductory paragraph.*
- *Questions are either in A,B,C format or bulleted.*
- *For every segmented part of the question, you will write a paragraph on it. Leave space between segments/paragraphs.*

Leave space between the paragraphs

- *5 bullets in the question= 5 paragraphs in your answer.*
- *Paragraphs can include 2-3 sentences, just as long as you answer the question. ➡ DO NOT bullet your paragraphs!*
