

Section 2

BSBWHS413 Contribute to implementation and maintenance of WHS consultation and participation processes

This unit describes the skills and knowledge required to contribute to implementing and maintaining work health and safety (WHS) consultation and participation as prescribed in legislation. It also covers contributing to communicating relevant information, identifying feedback opportunities, and improving consultation and participation. The unit applies to those working in a broad range of WHS roles across all industries.

NOTES:

The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) are equivalent, and generally either can be used in the workplace. In jurisdictions where model WHS laws have not been implemented, registered training organisations (RTOs) are advised to contextualise this unit of competency by referring to existing WHS legislative requirements.

The model WHS laws include the model WHS Act, model WHS Regulations and model WHS Codes of Practice. See Safe Work Australia for further information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
