

CHAPTER 1 Driving and Mobility

STUDY GUIDE FOR CHAPTER 1 LESSON 1

Mobility and Driver Education

A. Driver education courses have many great benefits. What do you think the results would be in the long run, say in 20 years, on the following rates and statistics if there were no driver education courses?

1. Insurance rates

would increase greatly because of more crashes. This would make insurance too expensive for the average young person to purchase.

2. Accident rates

would increase greatly, especially for newer, younger drivers

3. Drinking and driving conviction rates

would probably rise, especially for younger drivers, who might not learn about the reasons not to drink and drive.

4. Traffic deaths

would increase greatly, especially for younger drivers.
