

PHYSICAL AND CHEMICAL CHANGES LAB- virtual

Pre-Lab Discussion:

Chemistry is the study of matter and the changes it undergoes. These changes can be divided into 2 classes: physical changes and chemical changes.

In a physical change, one or more physical properties of a substance are altered. Examples of such physical properties are: size, shape, color, and state of matter. Grinding, melting, dissolving, and evaporating are all physical changes. No new substance or substances are formed as a result of a physical change.

A chemical change results in the formation of one or more "new" substances. These new substances differ in chemical properties and composition from the original substance. Iron rusting and paper burning are two examples of chemical change. 5 signs of a chemical change are formation of bubbles (gas produced), formation of a precipitate (solid formed), change of color, change of temperature or production of an odor.

This experiment will help you understand the differences between physical and chemical changes and to recognize each type of change when it occurs.

Station 1 video

1. Scrape off a small amount of candle wax into a glass container.
2. Heat the outside of the glass container with a flame lighter until the wax melts. [video for wax scrape and heat](#)
3. Light the candle and allow it to burn for 30 seconds. [video of candle burning](#)

	observations	P or C	Evidence to support P or C
candle	its white its a solid	P	because it's still wax but just smaller pieces
Scraping of candle wax	melted fast, liquid, clear	P	it's still wax but there was a small color change and changed to a liquid
Melting of candle wax	it burned quickly, where did the wax go?, as it burned it became smaller	C	not reversible, its a "new" substance
Burning of candle	same this ^	C	not reversible, its a "new" substance

Station 2

1. Tear a piece of paper into pieces.
2. Place the pieces of paper on wire gauze and ignite them with a match. [video for paper tear and burn](#)

	observations	P or C	Evidence to support P or C
Sheet of paper	was white		
Torn paper	white, smaller	P	small pieces but still paper
Burned paper	ashes, color change,	C	turned to ash, cant g back, smoke

Answers To Evidence For Chemical Change Lab

Richard Bailey

Answers To Evidence For Chemical Change Lab:

Right here, we have countless ebook **Answers To Evidence For Chemical Change Lab** and collections to check out. We additionally present variant types and as well as type of the books to browse. The okay book, fiction, history, novel, scientific research, as capably as various extra sorts of books are readily easy to use here.

As this Answers To Evidence For Chemical Change Lab, it ends happening swine one of the favored books Answers To Evidence For Chemical Change Lab collections that we have. This is why you remain in the best website to see the amazing books to have.
