

Growing Patterns: Question 4

The Magical Gem Converter is a mysterious device found in the ancient ruins of Mathlandia. It has the power to turn ordinary stones into precious gems. The explorers have noticed a pattern in the conversion process and have documented their findings in the table below. Can you help them understand how the Gem Converter works by filling in the missing numbers in the table?

In	Out
1	2
2	4
3	6
4	8
5	10
6	12
7	14
8	16
9	18
10	20

What is the secret pattern of the Magical Gem Converter?

The pattern is straightforward: The Magical Gem Converter doubles the number of stones to get the number of gems.

For every 1 stone you put in, you get 2 gems out.

Write a rule that explains how to find out the number of gems (Out) for any number of stones (In).

Pattern Rule: To find the number of gems, multiply the number of stones by 2.

Answers To Growing Growing Growing Inv 4
