Section 5: Guided Reading and Review
The Election
A. As You Read

Using information from Section 5, complete the chart below, which shows different plans for electing the President.

Actual or Proposed System	How it Works	Flaws
Electoral College	1. Voters in each State vote for electors for a party's presidential and vice presidential candidates, and each State's votes are awarded on a winner-take-all basis.	2. The winner of the national popular vote may not win the electoral vote; electors may break their pledges to vote for the candidate; if there is no majority, the House decides.
District Plan	3. Two electors are chosen from each State at large and cast votes in accordance with statewide popular vote. All other delegates are elected separately from State's congressional districts.	4. The winner of the popular vote may not win the electoral vote.
Proportional Plan	5. Candidates would receive the same percentage of a State's electoral vote as he or she receives in the State's popular vote.	6. The election may not produce a clear winner, and third parties would gain power.
Direct Popular Election	7. The electoral college would be scrapped and the President and Vice President would be elected by direct popular vote.	8. It requires a Constitutional amendment, would weaken federalism, small States would oppose it, and it might not produce a clear winner.
National Bonus Plan	9. Electors votes awarded State by State, on winner-take-all basis; national pool of 102 electoral votes awarded to winner of popular vote. In a tie, run-off between two top candidates in popular vote.	10. This plan is not well known or understood.

11. In which three elections of the past has the winner of the popular vote failed to win the electoral vote for the presidency? 1824 1876 1888
