Cabin Crew Manual [Part 1] Ms. Adityaa Srivastava, Mr. Lenwin D'Souza, 2024-10-04 From time immemorial man has wished for wings to fly like birds to have unbound access of movement in the sky Just as the limitless sky their eagerness to fly was boundless resulting in justification of saying where there is a will there is a way This dream came true and one day man

indeed began flying Although many people think that human flight began with the aircraft in the early 1900s people had already been flying for some 200 years before that Even Leonardo da Vinci nurtured this dream and had sketched some illustrations to explain a hang glider design Sketch of a Hang Glider by Leonardo da Vinci This book is however intended to furnish adequate knowledge to all aspiring cabin crew to understand the job aspired for distinctly and to decide thereafter whether it suits them and is preferred by them At the same time it could as well act as a guidebook for those who are already in the profession and intend to advance their career In addition to making the reader evaluate his her liking for the profession and to decide about its suitability for him her and plump for joining it thereafter this book elaborates upon the job and duties of cabin crew and suggests the means procedures and methods that are to be adopted to make them fit for this extraordinary career Our heartfelt gratitude to Director Ms Pallavi Chaudhari for her cooperation and encouragement given by her throughout the writing the book We look forward to receive suggestions from the readers that would enhance the appeal utility of this book
