Amazon's Dirty Little Secrets Greg Jameson, 2014-08-01 Many people believe that Amazon's success is the direct result of a strong user shopping experience. This however is only part of the reason why Amazon is the number one ecommerce company in the world for almost two decades. The real reason behind Amazon's success is that they have mastered the art of getting other people to market and sell for them. From affiliate partners that drive traffic to online reviews and ratings where customers tell other customers why they should buy a product to getting free publicity from shows like Oprah or 60 Minutes Amazon is the online company to emulate. Amazon's Dirty Little Secrets will show you how you can accomplish this for your company. Amazon's Dirty Little Secret is getting others to do their marketing and sales for them. This is so powerful that Greg created an acronym using the word POWER: P Plenty of traffic, O Offer something for free, W Win their trust, E Engaging experience, R Request an action. Additional tips and secrets. Anyone engaged in Internet sales and marketing will benefit from the specific examples in this book.

Reputation Economics Joshua Klein, 2025-06-25 As the internet has increasingly become more social the value of individual reputations has risen and a new currency based on reputation has been created This means that not only are companies tracking what an individual is tweeting and what sites they spend the most time on but they re using this knowledge to predict the consumer s future behavior And a world in which Target knows that a woman is pregnant before she does or where a person gets a job or loses one based on his high school hijinx is a scary one indeed Joshua Klein s Reputation Economics asks these crucial questions But what if there were a way to harness the power of these new technologies to empower the individual and entrepreneur What if it turned out that David was actually better suited to navigate this new realm of reputation than Goliath And what if he ushered in a new age of business in which reputation rather than money was the strongest currency of all This is all currently happening online already Welcome to the age of Reputation Economics Where Avis is currently discounting car rentals based on Twitter followers Where Carnival Cruise Lines are offering free upgrades based on a Klout score Where Amazon and Microsoft are a short way away from dynamically pricing their goods based on a consumer s reach and reputation online Where Klout scores are being used to vet job applications The value of individual reputation is already radically changing the way business is done **Satu Juta**
