Afro-Latin American Studies Alejandro de la Fuente, 2018-04-26 Examines the full range of humanities and social science scholarship on people of African descent in Latin America

Published by the Author Bryan Sinche, 2024-04-10 Publication is an act of power It brings a piece of writing to the public and identifies its author as a person with an intellect and a voice that matters Because nineteenth century Black Americans knew that publication could empower them and because they faced numerous challenges getting their writing into print or the literary market many published their own books and pamphlets in order to garner social political or economic rewards In doing so these authors nurtured a tradition of creativity and critique that has remained largely hidden from view Bryan Sinche surveys the hidden history of African American self publication and offers new ways to understand the significance of publication as a creative reformist and remunerative project Full of surprising turns Sinche's study is not simply a look at genre or a movement it is a fundamental reassessment of how print culture allowed Black ideas and stories to be disseminated to a wider reading public and enabled authors to retain financial and editorial control over their own narratives

Contraband Guides Paul H. D. Kaplan, 2020-04-23 In his best selling travel memoir *The Innocents Abroad* Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a *contraband* guide a term coined to describe fugitive slaves who assisted Union armies during the Civil War By means of this and similar case studies Paul H D Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth century concepts of race in the United States Americans of the Civil War era were struck by the presence of people of color in European art and society and American artists and authors both black and white adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans Taking up the work of both well and lesser known artists and writers such as the travel writings of Mark Twain and William Dean Howells the paintings of German American Emanuel Leutze the epistolary exchange between John Ruskin and Charles Eliot Norton newspaper essays written by Frederick Douglass and William J Wilson and the sculpture of freed slave Eugene Warburg Kaplan lays bare how racial attitudes expressed in mid nineteenth century American art were deeply inflected by European traditions By highlighting the contributions people of black African descent made to the fine arts in the United States during this period along with the ways in which they were represented *Contraband Guides* provides a fresh perspective on the theme of race in Civil War era American art It will appeal to art historians to specialists in African American studies and American studies and to general readers interested in American art and African American history

Beyond Therapy Erving Polster, 2017-09-08 In *Beyond Therapy* Erving Polster examines the role of life focus in three of society's most familiar activities ordinary conversation the arts and religion He shows the life focus movement to be an indivisible complement to just simply living In proposing a paradigm shift from psychotherapy's priority for changing people

s troubled lives into the complementary purpose of illuminating their lives the author invites the participation of many people who do not seek remedial treatment for emotional or psychological problems Polster incorporates a broader scenario for enhancing attention through community groups showing that the convergence of people s minds on commonly important life themes creates enlightenment This interlocked focus amplifies the ensuing conversational content and creates a meditation like absorption This kind of pointed focus argues Polster has the power to colour the lives of the participants This work offers rationale and design for life focus community groups and also creates a heightened identity for the life focus movement providing other foundational ideas that help to unify diverse approaches Mental health professionals will benefit from its wealth of specific exercises and instructions for program design Polster provides leaders and group members with a well rounded perspective on the basics of personal enlightenment and communal belonging

Exporting Reconstruction Ryan P. Semmes, 2024-11-21 How Reconstruction era political battles reflected global struggles over the era s core ideals Exporting Reconstruction examines Ulysses S Grant s Reconstruction era policy both foreign and domestic as an integrated whole Grant s vision for America s international role in the aftermath of the Civil War was best articulated in his 1869 memorandum considering whether the United States should annex the Dominican Republic Grant envisioned a combined domestic and foreign policy of Reconstruction one predicated on spreading the values of liberty equality and the rights of citizenship to not only the Dominican Republic but also other Caribbean nations as well as to Native Americans and Chinese immigrants living in the United States but seen as aliens within the nation Author Ryan P Semmes interprets the Grant era policy of Reconstruction as an all encompassing agenda that imagined the United States as the arbiter of civil rights for the Western Hemisphere Exporting Reconstruction shows readers that unlike presidents before and after his administration Grant hoped to increase not only the United States s imperial reach but also extend freedom and

liberty to people beyond the borders of North America

Before the Movement Dylan C. Penningroth, 2023-09-26 Penningroth's conclusions emerge from an epic research agenda Before the Movement presents an original and provocative account of how civil law was experienced by Black citizens and how their legal lives changed over time an ambitious stimulating and provocative book Eric Foner New York Review of Books Winner of the Beveridge Award American Historical Association Winner of the Littleton Griswold Prize American Historical Association Finalist for the Cundill History Prize Winner of the Order of the Coif Book Award Winner of the James Willard Hurst Prize Law and Society Association Winner of the John Philip Reid Award American Society for Legal History Winner of the Charles Sydnor Award Southern Historical Association Winner of the Merle Curti Social History Award Organization of American Historians Winner of the Ellis W Hawley Prize Organization of American Historians Winner of the PEN Oakland Josephine Miles Award Winner of the Scribes Book Award Winner of the David J Langum Sr Prize in American Legal History Shortlisted for the Ralph Waldo Emerson Award Phi Beta Kappa Shortlisted for the Stone Book Award Museum of African American History Shortlisted for the Mark Lynton History Prize Columbia Journalism School A prize winning scholar draws on astonishing new research to demonstrate how Black people used the law to their advantage long before the Civil Rights Movement The familiar story of civil rights goes like this once America's legal system shut Black people out and refused to recognize their rights their basic human

dignity or even their very lives When lynch mobs gathered police and judges often closed their eyes if they didn't join in For Black people law was a hostile fearsome power to be avoided whenever possible Then starting in the 1940s a few brave lawyers ventured south bent on changing the law Soon ordinary African Americans awakened by Supreme Court victories and galvanized by racial justice activists launched the civil rights movement In Before the Movement acclaimed historian Dylan C Penningroth brilliantly revises the conventional story Drawing on long forgotten sources found in the basements of county courthouses across the nation Penningroth reveals that African Americans far from being ignorant about law until the middle of the twentieth century have thought about talked about and used it going as far back as even the era of slavery They dealt constantly with the laws of property contract inheritance marriage and divorce of associations like churches and businesses and activist groups and more By exercising these rights of everyday use Penningroth demonstrates they made Black rights seem unremarkable And in innumerable subtle ways they helped shape the law itself the laws all of us live under today Penningroth's narrative which stretches from the last decades of slavery to the 1970s partly traces the history of his own family Challenging accepted understandings of Black history framed by relations with white people he puts Black people at the center of the story their loves and anger and loneliness their efforts to stay afloat their mistakes and embarrassments their fights their ideas their hopes and disappointments in all their messy humanness Before the Movement is an account of Black legal lives that looks beyond the Constitution and the criminal justice system to recover a rich broader vision of Black life a vision allied with yet distinct from the freedom struggle

Philosophy of Religion and the African American Experience John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by

philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman Cone and Jones the present book functions as a corrective to this scholarly lacuna
