Hollywood or History Scott L. Roberts, Charles J. Elfer, 2018-07-01 Teaching and learning through Hollywood or commercial film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century Purposeful and effective instruction through film

however is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures In response to the problems and possibilities associated with teaching through film we have collaboratively developed a collection of practical classroom ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized foster critical thinking and civic mindedness The College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that this edited book might play a small role in the larger project of supporting practitioners specifically K 12 teachers of United States history by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures The book consists of K 5 and 6 12 lesson plans addressing the following historical eras Adapted from UCLA National Center for History in Schools *American History* Alan Brinkley, 1999

The History of Nebraska Law Alan G. Gless, 2008 In the aftermath of the Civil War legislators in the Nebraska Territory grappled with the responsibility of forming a state government as well as with the larger issues of reconstructing the Union protecting civil rights and redefining federal state relations In the years that followed Nebraskans coped with regional and national economic collapses Nebraska women struggled for full recognition in the legal profession Meyer v Nebraska a case involving a teacher in a one room rural Nebraska schoolhouse changed the course of American constitutional doctrine and remains one of the cornerstones of civil liberties law And Roscoe Pound a boy from Lincoln went on to become one of the nation's great legal philosophers Nebraska holds a prominent position in the field of Native American legal history and the state's original inhabitants have been at the center of many significant developments in federal Indian policy Nebraska Indian legal history is replete with stories of failure and success heartache and triumph hardship and hope These stories are more than a mere record of the past of treaties broken or trials won they are reminders of the ongoing and sometimes tense relations among the many peoples and nations that make up the heartland Much of Nebraska law reflects mainstream American law yet Nebraskans also have been open to experiment and innovation The state revamped the legislative process by establishing the nation's only unicameral legislature and pioneered public employment collective bargaining and dispute resolution through its industrial relations commission and its relaxation of strict separation of powers These seemingly contradictory trends however are but differing expressions of a single underlying principle inscribed in the state's motto Equality Before the Law

In the Lion's Mouth Omar H. Ali, 2011-02-03 Following the collapse of Reconstruction in 1877, African Americans organized a movement distinct from the white Populist movement in the South and parts of the Midwest for economic and political reform. Black Populism, between 1886 and 1898, tens of thousands of black farmers, sharecroppers, and agrarian workers created their own organizations and tactics, primarily under black leadership. As Black Populism grew as a regional force, it met fierce resistance from the Southern Democrats and constituent white planters and local merchants. African Americans carried out a wide range of activities in this hostile environment: They established farming exchanges and cooperatives, raised money for schools, published newspapers, lobbied for better agrarian legislation, mounted boycotts against agricultural trusts and business monopolies, carried out strikes for better wages, protested the convict lease system, segregated coach boxes, and lynching, demanded black jurors in cases involving black defendants, promoted local political reforms, and federal supervision of elections, and ran independent and fusion campaigns. Growing out of the networks established by black churches and fraternal organizations, Black Populism found further expression in the Colored Agricultural Wheels, the southern branch of the Knights of Labor, the Cooperative Workers of America, the Farmers Union, and the Colored Farmers Alliance. In the early 1890s, African Americans together with their white counterparts launched the People's Party and ran fusion campaigns with the Republican Party. By the turn of the century, Black Populism had been crushed by relentless attack, hostile propaganda, and targeted assassinations of leaders and foot soldiers of the movement. The movement's legacy remains though as the largest independent black political movement until the rise of the modern civil rights movement.

Confronting the War Machine Michael S. Foley, 2003 Focusing on the draft resistance movement in Boston in 1967-68, this study argues that these acts of mass civil disobedience turned the tide in the antiwar movement by drawing the Johnson administration into a confrontation with activists who were largely young, middle class, liberal, and from suburban backgrounds, the core of Johnson's constituency.

Dead Last Phillip G. Payne, 2009 2009 CHOICE Outstanding Academic Title If George Washington and Abraham Lincoln are the saints in America's civil religion, then the twenty-ninth president, Warren G. Harding, is our sinner. Prior to the Nixon administration, the Harding scandals were the most infamous of the twentieth century. Harding is consistently judged a failure, ranking dead last among his peers. By examining the public memory of Harding, Phillip G. Payne offers the first significant reinterpretation of his presidency in a generation.

Rather than repeating the old stories Payne examines the contexts and continued meaning of the Harding scandals for various constituencies Payne explores such topics as Harding's importance as a midwestern small town booster his rumored black ancestry the role of various biographers in shaping his early image the tension between public memory and academic history and finally his status as an icon of presidential failure in contemporary political debates Harding was a popular president and was widely mourned when he died in office in 1923 but with his death began the construction of his public memory and his fall from political grace In *Dead Last* Payne explores how Harding's name became synonymous with corruption cronyism and incompetence and how it is used to this day as an example of what a president should not be
