American History: Selected topics in cultural, social, and economic history Warren Susman, John Whiteclay Chambers, 1983 **American History** Warren Susman, John Whiteclay Chambers, 1990 *American History: Selected topics in twentieth century history* Warren Susman, John Whiteclay Chambers, 1983 The American Historical Association's Guide to Historical Literature American Historical Association, 1995 Contains nearly 2 000 annotated citations primarily English language works divided into forth eight sections citations refer chiefly to works published between 1961 and 1992

The Johns Hopkins University Studies in Historical and Political Science Johns Hopkins University, 1887 **2012-2013 UNCG Graduate School Bulletin** , *Getting the Most Out of Your U.S. History Course* Neil R. Stout, 1996 The Third Edition of the Vade Mecum features a wealth of suggestions on reading and reviewing the textbook interpreting maps and graphs taking lecture notes preparing for examinations using the library citing sources and writing reports and term papers It includes treatment of such subjects as career possibilities for history majors essay test taking evaluation of photographic and fine art historical sources and writing tasks beyond book reports and research papers *Invasion and Insurrection* Jeffery M. Dorwart, 2008 This book seeks to discover when why and how Delaware Valley communities between 1621 when the Dutch West India Company issued instructions for the security and defense of the Delaware River until 1815 as the region abandoned its Committee of Defense of the Delaware at the end of the War of 1812 first used military force to repel invasion in times of war and suppress insurrection in peacetime It traces how these mid Atlantic communities confronted constant threats from real or imagined enemies invasion and insurrection from earliest seventeenth century settlement and articulated ideas and built institutions for security defense and war It argues that from the beginning these Delaware Valley communities failed to differentiate between their concert for defense against external attacks or invasion in wartime with that of providing security for their home communities against internal enemies durins peacetime Though conflicted about using force both to defend against invasion and suppress insurrection over time as the Delaware Valley communities moved to the center of colonial wars revolution and establishment of a republic and constitutional government their long experience with security defense and war that blurred the lines between military defense in wartime and preserving peacetime security eventually fused into Article 1 section 8 of the U S Constitution to empower the congress to use the militia to repel invasion and suppress insurrection Jeffery M Dorwart is professor of military naval and New Jersey history at Rutgers University

Information Technology in the Teaching of History Allan Martin, Lez Smart, David Yeomans, 2013-11-26 Information technology offers powerful tools to facilitate and to assist learning across the whole curriculum the computer is certainly the most significant development in educational technology in the twentieth century History may be thought of as a staid and perhaps tradition bound subject more resistant to change than some areas Yet in history too information technology is making an impact This volume shows how information technology is currently contributing to and bringing about changes in

the way history is taught and learned The international selection of the contributions shows that these phenomena are not restricted to just one country The impact of information technology on history curricula is explored in depth in one section of the book whilst other sections focus on classroom activities and issues on the development of software for history and on the relevance of current information technology developments But the question which lies at the heart of it all remains that of how information technology can enhance the teacher s ability to offer situations in which learners can form and develop a real understanding of the nature of historical processes and the ways in which they can be studied **Papers of the**
