Answer Key To The 2014 Global Regents:

The Corporation as a Protagonist in Global History, c. 1550-1750 ,2018-12-10 William A Pettigrew and David Veevers put forward a new interpretation of the role Europe s overseas corporations played in early modern global history recasting them from vehicles of national expansion to significant forces of global integration Across the Mediterranean Atlantic Indian Ocean and Pacific corporations provided a truly global framework for facilitating the circulation movement and exchange between and amongst European and non European communities bringing them directly into dialogue often for the first time Usually understood as imperial or colonial commercial enterprises The Corporation as a Protagonist in Global History reveals the unique global sociology of overseas corporations to provide a new global history in which non Europeans emerged as key stakeholders in European overseas enterprises in the early modern world Contributors include Michael D Bennett Aske Laursen Brock Liam D Haydon Lisa Hellman Leonard Hodges Emily Mann Simon Mills Chris Nierstrasz Edgar Pereira Edmond Smith Haig Smith and Anna Winterbottom

The Pursuit of Human Well-Being Richard J. Estes,M. Joseph Sirgy,2017-01-09 This handbook informs the reader about how much progress we the human race have made in enhancing the quality of life on this planet Many skeptics focus on how the quality of life has deteriorated over the course of human history particularly given World War II and its aftermath This handbook provides a positive perspective on the history of well being Quality of life as documented by scientists worldwide has significantly improved Nevertheless one sees more improvements in well being in some regions of the world than in others Why This handbook documents the progress of well being in the various world regions as well as the differences in those regions The broad questions that the handbook addresses include What does well being mean How do different philosophical and religious traditions interpret the concept of well being within their own context Has well being remained the same over different historical epochs and for different regions and subregions of the world In which areas of human development have we been most successful in advancing individual and collective well being In which sectors has the attainment of well being proven most difficult How does well being differ within and between different populations groups that for a variety of socially created reasons have been the most disadvantaged e g children the aged women the poor racial ethnic and sexual minorities

Rich Peter Dauvergne, 2016-09-23 Global Environmental Politics overviews The Story of Work Jan Lucassen, 2021-07-27 The first truly global history of work an upbeat assessment from the age of the hunter gatherer to the present day We work because we have to but also because we like it from hunting gathering over 700 000 years ago to the present era of zoom meetings humans have always worked to make the world around them serve their needs Jan Lucassen provides an inclusive history of humanity s busy labor throughout the ages Spanning China India Africa the Americas and Europe Lucassen looks at the ways in which humanity organizes work in the household the tribe the city and the state He examines how labor is split between men women and children the watershed moment of the invention of money the collective action of workers and at the impact of migration slavery and the idea of leisure From peasant farmers in the first agrarian societies to the precarious existence of today s gig workers this surprising account of both cooperation and subordination at work throws essential light on the opportunities we face today **Sir Banister Fletcher's Global History of Architecture** Sir Banister Fletcher, 2020

Sir Banister Fletcher s Global History of Architecture is the acknowledged classic reference work for architectural history It has been essential reading for generations of architects and students since the first edition was published in 1896 and this tradition continues today as the new 21st edition provides the most up to date authoritative and detailed account of the global history of architecture available in any form Thousands of major buildings from around the world are described and explained accompanied by over 2 200 photographs plans and drawings Architectural styles and traditions are placed within a clear framework and the chronological and geographical arrangement of the work s 102 chapters allows for easy comparative analysis of cultural contexts resources and technologies *Carbon Societies* Peter Wagner, 2024-05-30 The

climate crisis is humanmade Its main cause is the burning of fossil fuels To combat climate change we have to understand how we arrived at where we are This book explores the reasons why human societies have embarked on the trajectory of ever increasing use of fossil fuels Population growth desire for freedom from want and profit seeking all played major roles in shaping human history but there has been no inevitable drive towards heating up the atmosphere in the pursuit of social objectives To sustain a growing population more natural resources are required but their use does not need to generate climate change No logic of modernity links freedom with a kind of material abundance that requires the burning of fossil fuels No logic of capital necessarily ties the search for profit to the extraction of fossil resources Examining the critical junctures in human history when resource regimes changed this book identifies the social problems that were meant to be solved by burning fossil fuels and the power hierarchies that shaped the decisions to use them Wagner argues that the key choices that led to the climate emergency were made relatively recently during the second half of the 20th century they are close enough in time for us to undo the prevailing social logic of fossil fuels By redefining the key problems that humankind is facing and reshaping the existing mechanisms of power we can take the decisive action needed to reduce our dependence on fossil fuels and avert the worst consequences of climate change

Doping in Sport and Fitness April Henning, Jesper

Andreasson, 2022-12-12 Doping in Sport and Fitness argues that rigid differentiations between doping contexts are less clear than it might seem Breaking down these boundaries allows for a more complete understanding of substance use patterns behaviours and policy responses related to sport fitness and society

Performance Cultures and Doped Bodies Jesper

Andreasson, April Henning, 2021-06-30 Why has doping both as a practice and a social phenomenon been approached largely as a question of context sport or fitness Individuals may use substances to enhance sporting performance or within the framework of gym and fitness culture to create a perfect body But clearly people who dope are not bound to a singular context It is quite the opposite as individuals weave between and move across various settings in their trajectories to and from doping as goals identities ambitions and lifestyles change over time Still these stark categorizations often made in

public discourse and reinforced by scholars have continued to ignore these lived experiences and limited our understanding of doping Building on data gathered through ethnographic fieldwork studies of online doping communities and in depth case studies this book embraces the challenge of moving beyond traditional and historical doping dichotomies such as those of sport or fitness online or offline pleasure or harm masculinity or femininity and health or harm and in a sociologically informed analysis it develops new terminology to understand trajectories to and from doping It argues there are multiple ways to understand doped bodies and doping practices and that we must approach these questions from the perspective of both and rather than either or By imploding these divisions it offers updated and nuanced ways of both empirically and theoretically rethinking doping use and experiences attached to the practice

Routledge Handbook of Environmental Anthropology Helen Kopnina, Eleanor Shoreman-Ouimet, 2016-08-12 Environmental Anthropology studies historic and present human environment interactions This volume illustrates the ways in which today's environmental anthropologists are constructing new paradigms for understanding the multiplicity of players pressures and ecologies in every environment and the value of cultural knowledge of landscapes This Handbook provides a comprehensive survey of contemporary topics in environmental anthropology and thorough discussions on the current state and prospective future of the field in seven key sections As the contributions to this Handbook demonstrate the subfield of environmental anthropology is responding to cultural adaptations and responses to environmental changes in multiple and complex ways As a discipline concerned primarily with human environment interaction environmental anthropologists recognize that we are now working within a pressure cooker of rapid environmental damage that is forcing behavioural and often cultural changes around the world As we see in the breadth of topics presented in this volume these environmental challenges have inspired renewed foci on traditional topics such as food procurement ethnobiology and spiritual ecology and a broad new range of subjects such as resilience nonhuman rights architectural anthropology industrialism and education This volume enables scholars and students quick access to both established and trending environmental anthropological explorations into theory methodology and practice

The Wardian Case Luke Keogh, 2023-01-05 In 1829 surgeon and amateur naturalist Nathaniel Bagshaw Ward discovered that plants enclosed in airtight glass cases could survive for long periods without watering After four years of growing plants under glass in his London home Ward created traveling glazed cases that he hoped would be able to transport plants around the world After a test run from London to Sydney Ward was proven correct and the Wardian case was born It is easy to forget in our technologically advanced and globalized world but prior to the invention of the case it was extremely difficult to transfer plants around the globe as they often died from mishandling cold weather or salt from the ocean In this enthralling book Luke Keogh takes us around the world and through history with the Wardian case He shows that this revolution in the movement of plants transformed the world impacting the commercial nursery trade late nineteenth century imperialism and the global environment The repercussions of this revolution are still with us today

History and

the Climate Crisis Kate Hawkey, 2023-08-15 History education has a key contribution to make in developing a deeper understanding of the current environmental crisis but its role is too often overlooked When embedded in the school curriculum environmental history adds crucial layers of knowledge to the learning from other subjects and can enable students to make their own informed contributions to one of the most pressing concerns of the 21st century History and the Climate Crisis makes the case for including an environmental focus in the secondary school history curriculum by locating its arguments within established historiographical and revisionist debates It provides much needed subject knowledge in an area that is new for most history teachers The author considers the disciplinary and pedagogical challenges and demonstrates how including an environmental focus can strengthen students disciplinary knowledge She also builds her argument through the use of many examples and offers practical strategies for use in classrooms including developed enquiries suitable for the secondary history curriculum The book focuses on environmental history within a strong subject bound curriculum and will be relevant to teachers academics and policymakers in the UK and internationally
