Pain Medicine and Management Mark S. Wallace, Peter Staats, 2004-03-05 A quick reference to the management of pain for specialists as well as general medical practitioners and residents Written in a concise bulleted format the content is limited to only the essential facts necessary for assessment and treatment of common pain conditions and presentations A perfect review tool for both the anesthesia and pain medicine board exams

Accountability in Social Research Norma Romm, 2007-05-08 In this book I have concentrated on drawing attention to various conceptions of accountability that might be brought to bear in judging the practice of social research Much of the book is organized around making explicit the assumptions that influence what counts as proper research in society including assumptions about how social inquirers might be held accountable My focus is on reviewing discourses around the practice of professional inquiry with a view to reconsidering the way in which people create expectations for accountable social inquiry My focus hereon is related to my concern that the manner in which judgments about researchers accountability are made is not without social consequences for our way of living in society I have approached the issues by beginning with a discussion of tenets of the position called positivism so named by certain proponents and by considering the view on accountability that is implied by adherence to these tenets Briefly expressed positivist argumentation suggests that researchers are required to do science in a manner that warrants their being considered indeed scientists I use my discussion of accountability as seen within positivist argumentation to explicate ways in which alternative positions have arisen as ways of treating accountability issues Through my way of comparing the various positions I hope to provide some indication of the complexity of ethical and accountability issues in social inquiry

Questions and Replies of the National Assembly South Africa. Parliament (1994-). National Assembly, 2002

Responsible Research Practice Norma RA Romm, 2018-04-21 This book explores ways in which creative research practice can be explicitly and mindfully geared to make a difference to the quality of social and ecological existence It offers a range of examples of how different research methods can be employed and re-tuned with this intention The book suggests that what Romm names active research involves using the research space responsibly to open up new avenues for thinking and acting on the part of those involved in the inquiry and wider stakeholders The book includes a discussion of a range of epistemological ontological methodological and axiological positions or paradigms that can be embraced by inquirers implicitly or explicitly It details the contours of an epistemology where knowing is recognized to be grounded in social relations as a matter of ethics While focusing on discussing the transformative paradigm and attendant view of research ethics it considers to what extent the borders between paradigms can be treated as being permeable in creative and active inquiries Apart from considering options for enhancing responsible research practice during the process of inquiry and reconsidering mixed research designs the book also considers options for responsible theorizing that is inspirational for pursuing goals of social and ecological justice

Claiming Identity Through Redefined Teaching in Construction Programs Mostafa, Sherif,Rahnamayiezekavat, Payam,2019-07-31 Without a rich learning source that presents state of the art pedagogy covering the key areas of contemporary practice the industrial field may fall out of line with the current times By reforming itself to embrace new norms such as social responsibility deploying modern construction methods including modular building and modernizing construction contracts the recent literary material will only positively influence the workforce of the world Claiming Identity Through Redefined Teaching in Construction Programs provides scholarly insights into the learning and teaching mechanisms developed at different institutions to address the ever changing attributes in the field of construction management Featuring topics that include artificial intelligence industrial law and operations management the book is ideal for educators industrial managers academics researchers and students The Right To Be Forgotten Franz

Werro,2020-03-06 This book examines the right to be forgotten and finds that this right enjoys recognition mostly in jurisdictions where privacy interests impose limits on freedom of expression According to its traditional understanding this right gives individuals the possibility to preclude the media from revealing personal facts that are no longer newsworthy at least where no other interest prevails Cases sanctioning this understanding still abound in a number of countries In today s world however the right to be forgotten has evolved and it appears in a more multi faceted way It can involve for instance also the right to access control and even erase personal data Of course these prerogatives depend on various factors and competing interests of both private and public nature which again require careful balancing Due to ongoing technological evolution it is likely that the right to be forgotten in some of its new manifestations will become increasingly relevant in our societies Adapting Health Communication to Cultural Needs Piet Swanepoel,Hans Hoeken,2008 The question of what

constitutes effective health communication has been addressed mainly by scholars working in American and European cultural contexts Many people who could benefit most from effective health communication however come from different cultures A prime example is the threat posed by HIV AIDS to the people of South Africa Although it is generally acknowledged that health communication needs to be tailored to the target audience s characteristics with cultural background being one of the most salient ones little research has been done on how to achieve this In this book we bring together leading scholars in the field of health communication as well as communication scholars from South Africa As such

it can serve as an example of the promises and the limitations of general health communication theories to local praxis as well as provide guidelines for the development of better health communication in South Africa Fifth Italian Conference on Theoretical Computer Science, Villa Rufolo, Ravello, Italy, November 9-11, 1995 Italian Conference on Theoretical Computer Science 1995, Ravello, Italy, Alfredo De Santis, 1996 Enhancing Education Through Open Degree Programs and Prior Learning Assessment Stevenson, Carolyn N., 2018-05-11 The rising cost of tuition increasing competition and mounting student loan debt has caused educational leaders to rethink degree programs and resources for learners As such open educational resources prior learning assessment open degree plans and competency based learning have gained popularity in the field of higher education Enhancing Education Through Open Degree Programs and Prior Learning Assessment is a critical scholarly resource that examines teaching and learning materials that learners may freely use and reuse without charge Featuring coverage on a broad range of topics such as open educational resources prior learning assessment and competency based learning this book is geared towards educators professionals school administrators researchers academicians librarians and students seeking current research on equity and access to higher education for all learners across the globe **Higher Education Pathways** Ashwin, Paul, Case, Jennifer M., 2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues *HCI International 2023 - Late Breaking Papers* Qin Gao, Jia Zhou, Vincent G.  African Human Resource Management** Ben Swanepoel,1998 Integrating contemporary international theory and practice
 and blending it into a South African perspective this text focuses on the knowledge and skills a human resource manager
 should need The book also covers relevant legislation including the Labour Relations Act 66 of 1995 Daniel – a South
 African Chronicle Daniel van der Merwe,2015-02-17 Despite being written mainly in the third person this book enables the
 perceptive reader to study a dramatic part of South Africa's history through the experiences of the main protagonist Because
 of his legal background Daniel is able to see how an initially fair legal system is corrupted in order to serve the increasingly
 desperate needs of the White minority This is a mere backdrop however to a love story that grows closer to tragedy as time
 passes because the heroine is an alcoholic The arrival of the computer alters the career of the hero dramatically and sends
 him on some overseas adventures to learn more about the legal implications of the new machine As a leader of a missionary
 team to Malawi Daniel also gets to grips with people with a totally different background and a differing worldview The book
 is sensitive to background and atmosphere and the hero encapsulates some of this in a few poems that form part of the main
