Memoirs of Napoleon Bonaparte Louis Antoine Fauvelet de Bourrienne, 1839 Memoirs Of Napoleon Bonaparte Louis Antoine Fauvelet De Bourrienne, 2019-09-25 Reproduction of the original Memoirs Of Napoleon Bonaparte by Louis Antoine Fauvelet De Bourrienne Mathematical Encounters of the Second Kind Philip J. Davis, 2012-12-06 A number of years ago Harriet Sheridan then Dean of Brown University organized a series of lectures in which individual faculty members described how it came about that they entered their various fields I was invited to participate in this series and found in the invitation an opportunity to recall events going back to my early teens The lecture was well received and its reception encouraged me to work up an expanded version My manuscript lay dormant all these years In the meanwhile sufficiently many other mathematical experiences and encounters accumulated to make this little book My 1981 lecture is the basis of the first piece Napoleon s Theorem Although there is a connection between the first piece and the second the four pieces here are essentially independent The second piece Carpenter and the Napoleon Ascription has as its object a full description of a certain type of scholar storyteller of whom I have known and admired several It is a pastiche containing a salad bar selection blended together by my own imagination This piece purports as a secondary goal to present a solution to a certain unsolved historical problem raised in the first piece The third piece The Man Who Began His Lectures with Namely is a short reminiscence of Stefan Bergman one of my teachers of graduate mathematics Bergman a remarkable person ality was born in Poland and came to the United States in 1939 Punch Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1870 *Memoirs of Napoleon Bonaparte* M. de Bourrienne, **Sapira's Art and Science of Bedside Diagnosis** Jane M. Memoirs of Napoleon Bonaparte: Complete & Illustrated L. A. Fauvelet De Bourrienne, 2024-01-23 The Memoirs of the time of Napoleon may be divided into two classes those by marshals and officers of which Suchet's is a good example chiefly devoted to military movements and those by persons employed in the administration and in the Court giving us not only materials for history but also valuable details of the personal and inner life of the great Emperor and of his immediate surroundings Of this latter class the Memoirs of Bourrienne are among the most important Long the intimate and personal friend of Napoleon both at school and from the end of the Italian campaigns in 1797 till 1802 working in the same room with him using the same purse the confidant of most of his schemes and as his secretary having the largest part of all the official and private correspondence of the time passed through his hands Bourrienne occupied an invaluable position for storing and recording materials for history The Memoirs of his successor Meneval are more those of an esteemed private secretary yet valuable and interesting as they are they want the peculiarity of position which marks those of Bourrienne who was a compound of secretary minister and friend The accounts of such men as Miot de Melito Raederer etc are most valuable but these writers were not in that close contact with Napoleon enjoyed by Bourrienne Bourrienne's position was simply unique and we can only regret that he did not occupy it till the end of the Empire Thus it is natural that his Memoirs should have been largely used by historians and to properly understand the history of the time they must be read by all students They are indeed full of interest for every one But they also require to be read with great caution When we meet with praise of Napoleon we may generally believe it for as Thiers *Consulat* ii 279 says Bourrienne need be little suspected on this side for although he owed everything to Napoleon he has not seemed to remember it But very often in passages in which blame is thrown on Napoleon Bourrienne speaks partly with much of the natural bitterness of a former and discarded friend and partly with the curious mixed feeling which even the brothers of Napoleon display in their Memoirs pride in the wonderful abilities evinced by the man with whom he was allied and jealousy at the way in which he was outshone by the man he had in youth regarded as inferior to himself Sometimes also we may even suspect the praise Thus when Bourrienne defends Napoleon for giving as he alleges poison to the sick at Jaffa a doubt arises whether his object was to really defend what to most Englishmen of this day with remembrances of the deeds and resolutions of the Indian Mutiny will seem an act to be pardoned if not approved or whether he was more anxious to fix the committal of the act on Napoleon at a time when public opinion loudly blamed it The same may be said of his defence of the massacre of the prisoners of Jaffa
