Answers To Economic Aqs Publishing:

The European Union and the Technology Shift Antonina Bakardjieva Engelbrekt, Karin Leijon, Anna Michalski, Lars Oxelheim, 2021-02-08 This book explores the multiple challenges that the global technology shift is posing to the EU It raises the question of how European societies will mobilize the positive effects of the rapid technological advancement in digitalization robotization and artificial intelligence while mitigating the negative consequences in terms of job losses cybercrime and social and political polarization From the vantage point of experts from economics law and political science this book provides insights into the role that the EU is and ought to be playing in regulating global platform companies addressing taxation in the digital economy mitigating job displacements on the labour market and tackling ethical concerns of artificial intelligence and the prospect of digital democracy All chapters are based on up to date research findings succinct assessment of the current state of affairs and ongoing debates They conclude with policy recommendations for policy makers on European and national levels This volume has a solid foundation in the highly topical question of technological change More importantly the individual chapters are written by qualified scholars whose analytically advanced contributions are likely to interest a wide audience I can strongly recommend this book for scholars and students in political science law and economics Carl Fredrik Bergström Professor of European Law Uppsala University Sweden When the Commission took office in 2019 it put forward its vision as to how Europe's digital future could be shaped in a way that makes the digital transition enrich people's lives and make sure that European businesses fully benefit from the opportunities offered by digital technologies Then COVID drastically accelerated the take up of digital solutions As the digital transformation affects every single one of us it is important that we have the widest possible debate on its inherent risks and opportunities This is why I warmly recommend this book It brings together an interdisciplinary set of scholars able to analyse the multifaceted implications of the technological shift And I could not agree more with the book's main takeaway i.e. that we need to create an adaptive regulatory framework capable of harnessing the positive effects of technological changes while buttressing the negative impact on European society and citizens Ambassador Kim Jørgensen Head of Cabinet to Commissioner and Executive Vice President Margrethe Vestager European Commission *Entrepreneurship and Dynamics in the Knowledge Economy* Charlie Karlsson, Börje Johansson, Roger Stough, 2006-09-27 In this book the authors argue that there are analytically distinct forms of entrepreneurship They provide a contemporary overview of current research and summarize the policy conclusions that can be drawn *Invested Narratives* Jill E. Twark, 2022-11-11 German economic crises from the past two hundred years have provoked diverse responses from journalists politicians scholars and fiction writers Among their responses storylines have developed as proposals for reducing unemployment improving workplace conditions and increasing profitability when stock markets tumble accompanied by inflation deflation and overwhelming debt The contributors to *Invested Narratives* assess German language economic crisis narratives from the interdisciplinary perspectives of finance

economics political science sociology history literature and cultural studies They interpret the ways German society has tried to comprehend recover from and avoid economic crises and in doing so widen our understanding of German economic debates and their influence on German society and the European Union Civic Discipline Karen M. Morin,2016-05-23 The American Geographical Society was the pre eminent geographical society in the nineteenth century U S This book explores how geographical knowledge and practices took shape as a civic enterprise under the leadership of Charles P Daly AGS president for 35 years 1864 1899 The ideals and programmatic interests of the AGS link to broad institutional societal and spatial contexts that drove interest in geography itself in the post Civil War period and also link to Charles Daly s personal role as New York civic leader scholar revered New York judge and especially popularizer of geography Daly s leadership in a number of civic and social reform causes resonated closely with his work as geographer such as his influence in tenement housing and street sanitation reform in New York City Others of his projects served commercial interests including in American railroad development and colonization of the African Congo Daly was also New York s most influential access point to the Arctic in the latter nineteenth century Through telling the story of the nineteenth century AGS and Charles Daly this book provides a critical appraisal of the role of particular actors institutions and practices involved in the development and promotion of geography in the mid nineteenth century U S that is long overdue **The Economics and Econometrics of Innovation** David Encaoua,Bronwyn H. Hall,François Laisney,Jacques Mairesse,2013-03-09 During the past few decades the interest of economists in the sources of long term economic growth has led an increasing number of them to focus on the role of innovation in creating that growth Although some researchers have always been interested in this topic the groundbreaking work of Solow 1957 Nelson 1959 and Arrow 1962 made many other economists recognize the central role played by innovation in almost all spheres of economic activity The Economics and Econometrics of Innovation presents a valuable overview of the work of the world s most renowned experts in the field of innovation and technical change It collects 22 outstanding contributions that reflect the results of the vast worldwide research efforts and remind us of the importance of economic incentives in shaping and directing innovative activities The volume presents an edited selection of papers that were first presented at the 10th International ADRES conference One particular goal of this book is to bring out the complementary nature of the various approaches to innovation and to facilitate in depth dialogues both between microeconomists and macroeconomists and between theoreticians and econometricians General topics that are considered range from the economy wide effects of innovation on growth and employment to the variation of individual firm innovative performance from the analysis of networks and standardization to the role of intellectual property rights and the assessment of knowledge spillovers Besides the wealth of information presented in the chapters readers of this volume will also appreciate the value of examining a single question from different angles and by using different methods *Gunton's Magazine of American Economics and Political Science* Starr Hoyt Nichols,Stanhope Sams,1899 **The Routledge**
