the global financial crisis affected the region and why it was not as severe as other crises in the past The collection covers data from Argentina Brazil Chile Colombia Cuba Mexico and Venezuela and demystifies the impact of the crisis on the accumulation path of the region without losing sight of each country s particularities Each country is analyzed by leading specialized and heterodox researchers who have vast experience in the field and who use an array of heterodox perspectives from Keynesian to Kaleckian and Marxian to Sraffian *The ^AOxford Handbook of the Italian Economy Since Unification* Gianni Toniolo,2013-01-04 OThe Oxford Handbook of the Italian Economy Since Unification provides for the first time a comprehensive quantitative new economic history of Italy **Barack Obama and the Future of American Politics** Paul Street,2015-12-22 Many Americans believe Barak Obama represents a hopeful future for America But does he also reflect the American politics of the past This book offers the broadest and best informed understanding on the meaning of the Obama phenomenon to date Paul Street was on the ground throughout the Iowa campaign and his stories of the rising Obama phenomenon are poignant Yet the author s background in American political history allows him to explore the deeper meanings of Obama s remarkable political career He looks at Obama in relation to contemporary issues of class race war and empire He considers Obama in the context of our nation s political history with comparisons to FDR JFK Bill Clinton and other leaders Street finds that the Obama persona crafted by campaign consultants and filtered through dominant media trends masks the change candidate s adherence to long prevailing power structures and party doctrines He shows how American political culture has produced misperceptions by the electorate of Obama s positions and values Obama is no magical exception to the narrow spectrum electoral system and ideological culture that have done so much to define and limit the American political tradition Yet the author suggests key ways in which Obama potentially advances democratic transformation Street makes recommendations on how citizens can productively respond to and act upon Obama s influence and the broader historical and social forces that have produced his celebrity and relevance He also lays out a real agenda for change for the new presidential administration one that addresses the recent failures of democratic politics **ORD Publications Summary** United States.
