Gizmo Warm-up

Data on weather conditions is gathered from weather stations all over the world. This information is combined with satellite and radar images to create weather maps that show current conditions. With the *Weather Maps* Gizmo, you will use this information to interpret a variety of common weather patterns.

A weather station symbol, shown at right, summarizes the weather conditions at a location.

1. The amount of cloud cover is shown by filling in the circle. A black circle indicates completely overcast conditions, while a white circle indicates a clear sky.

What percentage of cloud cover is indicated on the symbol above? **25%**
