

Answers To Grade 11 Rhino Poaching Assignment

Ronald Orenstein

Answers To Grade 11 Rhino Poaching Assignment:

Questions and answers for the classroom Gr 10-12 Samestelling, 2024-08-01 Hierdie boek is ideaal vir onderwysers en ouers. Onderwysers sal die tekste in die klaskamer kan gebruik omdat daar meer as 50 tekste in n verskeidenheid afdelings is soos begripstoetse, visuele tekste, luister toetse en opsommings. Ouers kan ook die boek vir kinders aankoop, dit is uitstekend vir addisionele materiaal en vir gebruik in tuissskool.

Operation Lock and the War on Rhino Poaching John Hanks, 2015. The definitive account of a daring and controversial covert operation to stop the aggressive illegal trade in rhino horn in the 1980s.

Rhino Poaching Janina Naef, 2016. Rhino horn is very popular in Asia as it is a status symbol and used as medicine. That is one reason why the number of these animals is decreasing continuously. In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos. This Matura Paper deals with problems of rhino poaching in South Africa. It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction. Therefore 5 theses has been stated which consist of political, financial, protection measures and enlightenment of local and Asian people. Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses. The results prove the problems already stated. If there are no changes in one of these problems the rhino doubtfully has a future.

Ivory, Horn and Blood Ronald Orenstein, 2013-07-25. Meticulous research, chilling facts, an important and much needed book. Dr Jane Goodall DBE Founder The Jane Goodall Institute. If it is understanding you seek turn these pages. Virginia McKenna OBE Founder The Born Free Foundation. If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild, this is the book for you. Ian Redmond OBE Ambassador UN Great Apes Survival Program. As recently as ten years ago out of every ten African elephants that died, four fell at the hands of poachers. The figure today is eight. Over sixty percent of Africa's Forest Elephants have been killed by poachers since the turn of the century. Rhinoceroses are being slaughtered throughout their ranges. The Vietnamese One horned Rhinoceros and the Western Black rhino have become extinct in the last decade and the Northern White Rhinoceros, the largest of them all, barely survives in captivity. This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit. But like the trade in illegal drugs, the traffic in elephant ivory and rhinoceros horn has far reaching implications, not only for these endangered animals but also for the human victims of a world wide surge in organized crime, corruption and violence. Since the worldwide ban on commercial ivory trade was passed in 1989 after a decade that saw half of Africa's elephants slaughtered by poachers, Ronald Orenstein has been at the heart of the fight. Today a new ivory crisis has arisen, fuelled by internal wars in Africa and a growing market in the Far East. Seizures of smuggled ivory have shot up in the past few years. Bands of militia have crossed from one side of Africa to the other slaughtering elephants with automatic weapons. A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world's rhinoceroses. The situation for both elephants and rhinos is dire.

Development of a Rhino Anti-poaching Model for Game Farms and Nature Reserves in the Free State Province of South Africa

H.L. Jordaan, 2018 During the last ten years the rhino populations of South Africa have suffered under an intense poaching onslaught This onslaught has moved to the Free State Province of South Africa and there is a justified concern that its rhino populations are at risk To protect the rhinos in the Province a need exists to manage the risk of poaching through a practical rhino anti poaching model which can assist to protect them effectively This Rhino Anti Poaching Model can determine and predict a poaching risk can identify weaknesses can assist to address problem areas and will enable efficient monitoring It is imperative to know which rhino species occurred in the Free State Province in historical times to ensure that the correct rhino species is protected against the risk of poaching and that they be kept in a suitable habitat Nine farms in the Free State have rhino as a prefix in their names which may be an indication that rhino did occur in the Province Various historical photos and literature give a retrospective view and show that there was insufficient browsing vegetation for black rhinos to survive The occurrence of open grassland however suggests that white rhinos did occur in those specific areas during the time of the first pioneers During this study period a count of rhinos was done and currently there are 669 white rhinos and 11 black rhinos in the Province thus a total of 680 rhinos in the Free State Province The South African Constitution mandated the State to enforce measures that will ensure adequate environmental protection for the benefit of future generations The South African government promulgated a myriad of new environmental legislation Several international agreements were also introduced as enforcement tools to regulate rhinos The enforcement measures are noble but out of balance with many inspectors but too few law enforcement officials It also over regulates and ensnare officials in minor issues A brief discussion on the latest technological innovations gives insight to the purpose of its development and effectiveness in combating rhino poaching There are currently no technical or strategic solutions to save rhinos from poaching therefore a combination of techniques is needed Although self manufactured unconventional devices seem to be more efficient to deceive poachers a combination with the latest technological equipment and conventional strategies might be the best solution to counter rhino poaching Free State rhino farmers own 90% of the Province's rhinos However these rhino farmers lack the appropriate security measures required to adequately protect their rhinos A questionnaire was developed and data were collected providing statistics on the current stance of security measures on rhino sites in the Province It showed that 80% of rhino poaching occurs in rhino camps bordering public roads 69% of the rhino sites located within 20km from the nearest town reported poaching and 77% of large rhino camps are prone to poaching incidents 57% of the respondents experienced rhino poaching on their sites Through the questionnaire it was gathered that rhino farmers in the Province are not vested in the concept of using trained rhino security A Production Loss Formula was constructed that calculates the production loss of a poached rhino

Unveiling the Magic of Words: A Report on "**Answers To Grade 11 Rhino Poaching Assignment**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Enter the realm of "**Answers To Grade 11 Rhino Poaching Assignment**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound affect on the souls of its readers.
