Read from pages 4-34 and answer the following questions.

(Original Text: Letter 1 - Chapter 3)

1. Frankenstein is a **frame story**; the story of Frankenstein is actually told through the diary of Robert Walton. Who is Robert Walton? How does he encounter Victor Frankenstein? Why does Frankenstein want to tell Walton his life story?

An explorer and Margaret's brother. Victor's sled floated to them in the night and they saved him because he was in bad shape. Victor tells his life story so Walton doesn't get hurt looking for answers like he did.

2. Who is Henry Clerval? Who is Elizabeth Lavenza?

Elizabeth is his sister. She was the biological daughter of a nobleman who passed. Henry is Victor's close friend that he met in Geneva.

3. Why is it important when lightning strikes the tree?

It inspires Walton's interests in natural science

4. What request does Victor's mother make when she gets sick?

She wanted her children to marry each other and wanted Elizabeth to be a mother to her younger children.

5. When Victor goes to Ingolstadt, who are his two professors? What is his reaction with each one?

Monsieur Krempe, he respected him but disliked him because he believed what he was studying was nonsense. Monsieur Waldman, he believed he was different. He found a good friend in him.

6. Describe Victor's life during the time he is working on his big experiment?

Since he spent so much time alone, he began to get sick and nervous and lost his ability to speak.

7. Describe the night Victor finishes his experiment. How does his mindset change before and after his work is completed?

He believed that his dream had become a nightmare because what he created was a nightmare. He couldn't look at him because he was terrified.

8. Who does Victor run into on the streets of Ingolstadt? What happens to Victor when they return back to his home? Once he recovers, what does this person ask him to do?

Bedford, 2021-01-11 Just over 200 years ago on a stormy night a young woman conceived of what would become one of the most iconic images of science gone wrong the story of Victor Frankenstein and his Creature For a long period Mary Shelley languished in the shadow of her luminary husband Percy Bysshe Shelley but was rescued from obscurity by the feminist scholars of the 1970s and 1980s This book offers a new perspective on Shelley and on science fiction arguing that she both established a new discursive space for moral thinking and laid the groundwork for the genre of science fiction Adopting a contextual biographical approach and undertaking a close reading of the 1818 and 1831 editions of the text give readers insight into how this story synthesizes many of the concerns about new science prevalent in Shelley's time Using Michel Foucault's concept of discourse the present work argues that Shelley should be not only credited with the foundation of a genre but recognized as a figure who created a new cultural space for readers to explore their fears and negotiate the moral landscape of new science *The Cambridge Companion to 'Frankenstein'* Andrew Smith, 2016-08-25 Sixteen original essays by leading scholars on Mary Shelley's novel provide an introduction to Frankenstein and its various critical contexts The
