between employers Positive emotions also motivate employees for organizational purposes If a leader wishes to create and maintain an effective organizational culture it is essential to support positive behavior and emotional climate in their institutes and schools Leaders school managers and teachers therefore need to develop emotion management abilities Educational organizations need to shape their organizational culture climate and psychology to support their leaders in efficiently managing their employees emotions Up to now this topic has been usually addressed as the main catalyst and a sub dimension of emotional intelligence Moreover current evidence classifies social and empathy skills as other sub dimensions of emotional intelligence For this reason this collection of peer reviewed articles will draw attention to the contemporary term emotional management and contribute to educational fields by means of exploring the relationship between emotions and leadership
