Aspects of Meiji Modernization Clark L. Beck, Ardath W. Burks, 1983-01-01. Concentrating on a key neglected aspect of the modernization process in Japan during the Meiji era, this volume treats in depth the assistance given to the Meiji regime by foreign visitors. One contribution takes a fresh look at the Meiji modernizers who constitute the ancestors of the tightly knit establishment that guides the contemporary super power. Somewhat more neglected in previous studies on this period are the foreign visitors who were present in Japan both to witness the changes and to assist the Japanese in the transition to modernity. Clark L. Beck is librarian for the William Elliot Griffis Collection, Rutgers University Libraries. Ardath W. Burks is professor emeritus of Asian Studies and former director of International Programs, Rutgers University.

Authoritarian Modernization in Indonesia's Early Independence Period Farabi Fakhri, 2020-09-07. In *Authoritarian Modernization in Indonesia's Early Independence Period*, Farabi Fakhri offers a historical analysis of the foundational years leading to Indonesia's New Order state, 1966-1998, during the early independence period. The study looks into the structural and ideological state formation during the so-called Liberal Democracy (1950-1957) and Sukarno's Guided Democracy (1957-1965). In particular, it analyses how the international technical aid network and the dominant managerialist ideology of the period legitimized a new managerial elite. The book discusses the development of managerial education in the civil and military sectors in Indonesia. The study gives a strongly backed argument that Sukarno's constitutional reform during the Guided Democracy period inadvertently provided a strong managerial blueprint for the New Order developmentalist state.

Resources in Education, 1992. **Xu Fuguan in the Context of East Asian Confucianisms** Chun-chieh Huang, 2019-10-31. Among twentieth-century Confucians, Xu Fuguan (1904-1982) remains preeminent. This volume, written by Chun-chieh Huang, an authority on Xu's life and thought, offers English-speaking readers for the first time an exhaustive analysis of the philosopher's original ideas and research. A distinguished member of the group of Contemporary New Confucians, Xu made a significant contribution to the revival of Chinese culture and society, and the present book outlines the specific features of his legacy in comparison with the views of some of his influential Chinese and Japanese contemporaries. The topics covered illustrate an overarching idea, namely, the innovative way in which Xu Fuguan answers a major question concerning Chinese culture, one posed by Chinese intellectuals since the May Fourth Movement: how best to approach the modernization of China. Xu's work is based on the assumption that Confucian thought and ethics, the core of Chinese tradition, can be modernized because there is nothing in it which is not compatible with the idea of human dignity or rights in modern society. Xu addresses the question of China's modernization by offering arguments in favor of building a connection between Confucianism and democracy, mainly its political dimension.

Huang places his subject in the vast context of twentieth century Chinese Confucian studies and the history of East Asian thought. He compares Xu Fuguan with his most influential opponents Hu Shi 1891-1962 and Fu Sinian 1896-1950 as well as fellow Confucians Tang Junyi 1909-1978 and Mou Zongsan 1909-1995. Huang draws further comparisons between Xu's thought and that of Japanese Enlightenment philosopher Fukuzawa Yukichi 1835-1901 and the father of contemporary Japanese capitalism Shibusawa Eiichi 1840-1931. These contrasts highlight the Chineseness of Xu's theories and the marks left by traditional Chinese thought and culture on his writing and life in the countryside where he spent much of his youth.

Collection explores the formation and uses of memory about the Asia Pacific front of World War II considering how it continues to shape political and diplomatic discourse *The Columbia Guide to Modern Chinese History* R. Keith Schoppa, 2000-08-05 China the world's oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage. At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state, the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one. These efforts are ongoing and of great importance. This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years. This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history: domestic politics, society, the economy, the world of culture and thought, and relations with the outside world. A compendium of 250 short descriptive articles on key figures, events, and terms; a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English; as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology, excerpts from key primary source documents, and a wealth of tables and graphs on demographic, social, and economic trends Implacable Foes Waldo Heinrichs, Marc Gallicchio, 2017-05-01 On May 8, 1945, Victory in Europe Day shortened to V-E Day brought with it the demise of Nazi Germany. But for the Allies the war was only half won. Exhausted but exuberant American soldiers ready to return home were sent to join the fighting in the Pacific which by the spring and summer of 1945 had turned into a grueling campaign of bloody attrition against an enemy determined to fight to the last man. Germany had surrendered unconditionally. The Japanese would clearly make the conditions of victory extraordinarily high. In the United States, Americans clamored for their troops to come home and for a return to a peacetime economy. Politics intruded upon military policy while a new and untested president struggled to strategize among a military command that was often mired in rivalry. The task of defeating the Japanese seemed nearly

unsurmountable even while plans to invade the home islands were being drawn Army Chief of Staff General George C Marshall warned of the toll that the agony of enduring battle would likely take General Douglas MacArthur clashed with Marshall and Admiral Nimitz over the most effective way to defeat the increasingly resilient Japanese combatants In the midst of this division the Army began a program of partial demobilization of troops in Europe which depleted units at a time when they most needed experienced soldiers In this context of military emergency the fearsome projections of the human cost of invading the Japanese homeland and weakening social and political will victory was salvaged by means of a horrific new weapon As one Army staff officer admitted The capitulation of Hirohito saved our necks In *Implacable Foes* award winning historians Waldo Heinrichs a veteran of both theatres of war in World War II and Marc Gallicchio bring to life the final year of World War Two in the Pacific right up to the dropping of the atomic bombs over Hiroshima and Nagasaki evoking not only Japanese policies of desperate defense but the sometimes rancorous debates on the home front They deliver a gripping and provocative narrative that challenges the decision making of U S leaders and delineates the consequences of prioritizing the European front The result is a masterly work of military history that evaluates the nearly insurmountable trials associated with waging global war and the sacrifices necessary to succeed
