Regulating Genetically Modified Crops in View of Environmental Risks Ancui Liu,2022-05-25 This book analyzes international and Chinese regulatory approaches addressing environmental risks that may be caused by GM crops and examines how China implements its international obligations in its policies and laws Using the legal doctrinal method the book discusses the precautionary principle and the public involvement principle as well as several legal measures at the international law level and in Chinese law It observes that legal principles and measures as provided for in China's GMO legal framework have generally implemented the international obligations regarding the prevention of environmental risks that may be caused by the cultivation of GM crops and related activities However the book argues that Chinese law lacks an explicit codification of the precautionary principle and the same is true with regard to public participation the regulatory

framework lacks specific obligations It concludes that future research should focus on the application and enforcement of the relevant Chinese legislation and that it is also important to investigate how the environmental risks that may be caused by new techniques such as genome editing techniques could be prevented given the experience gained by regulating the cultivation of GM crops and related activities Climate Change Risks and Adaptation Linking Policy and Economics OECD,2015-07-07 Building on the experience of OECD countries this report sets out how the latest economic evidence and tools can enable better policy making for adaptation **Regulatory Foundations for the Food Protection Professional** Julia Bradsher,Gerald Wojtala,Craig Kaml,Christopher Weiss,David Read,2015-07-13 Regulatory Foundations for the Food Protection Professional is a comprehensive guide for the entry level food protection professional FPP working in either the public or private sector The book can also serve as a foundation for students in academic programs preparing for a career in food protection Additionally as the Food Safety Modernization Act FSMA is implemented this book will provide valuable information for countries wishing to export foods and food ingredients to the U S and comply with U S food safety regulations The book is based on the Entry Level component of the National Curriculum Framework for regulators created by the International Food Protection Training Institute IFPTI located in Battle Creek Michigan The Entry Level component of the National Curriculum Framework contains more than twenty content areas including Epidemiology Microbiology Labeling Food Defense Awareness Program Standards Environmental Health and Safety Sampling and Allergens Each chapter is divided into specific learning objectives aimed at equipping the entry level FPP with the knowledge and skills necessary to successfully perform his or her job whether in the public or private sector and whether in food safety or food defense Established in 2009 IFPTI is improving public health by building competency based training and certification systems and cultivating leadership for the food protection community worldwide Our mission is to enhance public health by improving the protection of the world s food supply through training certification thought leadership and technology See more at [www ifpti org](http://www.ifpti.org) **Environmental Health** Howard Frumkin,2016-02-29 The bestselling environmental health text with all new coverage of key topics Environmental Health From Global to Local is a comprehensive introduction to the subject and a contemporary authoritative text for students of public health environmental health preventive medicine community health and environmental studies Edited by the former director of the CDC s National Center for Environmental Health and current dean of the School of Public Health at the University of Washington this book provides a multi faceted view of the topic and how it affects different regions populations and professions In addition to traditional environmental health topics air water chemical toxins radiation pest control it offers remarkably broad cross cutting coverage including such topics as building design urban and regional planning energy transportation disaster preparedness and response climate change and environmental psychology This new third edition maintains its strong grounding in evidence and has been revised for greater readability with new coverage of ecology sustainability and vulnerable populations with integrated coverage of policy issues
