Paperbound Books in Print, 1991 **Designing Cost Management Systems to Support Business Decision-Making** Pieter Buys, 2021-07-19

This book illustrates the importance effective cost management systems in providing a supportive environment in which reliable and relevant management information can be generated Such a cost management system is only attainable if the importance of key business operational and stakeholder requirements are recognised within the organisational context In illustrating this importance this book provides several case studies as examples thereof The first two case studies focus on the engineering sector and illustrates the development of a cost management system in a water recycling context and the design of a budgetary system in a mining engineering context The remaining case studies focus on the services sector including cost management systems for a digital technology services provider and a medical insurance services provider an alternative activity based costing approach for a public sector services provider and finally a re designed value stream for an automotive services provider Academic researchers and industry managers in the fields of management accounting and financial management as well as engineering and operations management will find value in the experiences described herein

Construction Management Eugenio Pellicer, Víctor Yepes, José C. Teixeira, Helder P. Moura, Joaquín Catalá, 2013-10-09 The management of construction projects is a wide ranging and challenging discipline in an increasingly international industry facing continual challenges and demands for improvements in safety in quality and cost control and in the avoidance

of contractual disputes Construction Management grew out of a Leonardo da Vinci project to develop a series of Common Learning Outcomes for European Managers in Construction Financed by the European Union the project aimed to develop a library of basic materials for developing construction management skills for use in a pan European context Focused exclusively on the management of the construction phase of a building project from the contractor s point of view Construction Management covers the complete range of topics of which mastery is required by the construction management professional for the effective delivery of new construction projects With the continued internationalisation of the construction industry Construction Management will be required reading for undergraduate and postgraduate students across Europe
