Schreiner, 2025-04-15 In the Schreiner household conversations about creation evolution and ecology happen more often than normal Schreiner teaches biblical studies and his brother in law is a biologist And both teach at institutions of Christian higher education However when Schreiner s family was able to take a trip to Gal pagos Islands in 2023 and 2024 his interpretive conclusions on the Bible s creation texts shifting positions on ecology and general moral responsibility as a Christian collided in a palpable way Inspired by a range of experiences from mingling with sea lions to taking water ferries across the Pacific to snorkeling with sharks Schreiner jovially shares experiences and musings that testify to his shifting positions on these matters his frustrations with the usual conversations and whether he thinks there can be true irenic conversation between Christians and scientists Informed blunt sometimes snarky but always honest Schreiner s musings will likely resonate with anyone who travels with their family or wants to be honest about the many variables that must inform a Christian s position on issues of creation evolution and ecology Deep Time in Genesis Steven R. Webb, 2016-03-31 The early chapters of Genesis have generated a battleground between people that believe the Earth is very young on the order of 6000 years and those that believe it is much older What has been mostly missing from this battle are the observations of professional Christian geologists Webb invites you to join his world to see the kind of work that geologists do that leads them to draw certain conclusions on this subject It is written in laymen s language and is designed to unite a variety of issues ranging from Noah s Flood to dinosaurs to early hominids to the Garden of Eden etc while maintaining the integrity of Scripture *The Arrogance of Religious Thought: Information Kills Religion* William A. Zingrone, 2016-10-05 A provocative challenging and irreverent expose of the obnoxious arrogance inherent in all religious thinking condemning one another to eternal torment relegating women and gays to second class citizenship dividing humanity into arbitrary factions sexual repression denial of knowledge promoting delusions of god and the afterlife upholding phony patriarchal authority claiming eternal truth without evidence and child indoctrination Religion is not good for the human race We would be better off dropping these bad habits on which we give religion a free pass We must stop lying to our children that religions are true Dr Zingrone is a college instructor and secular activist with a PhD in Developmental Psychology exploring research interests in cognitive development and evolution His driving motivation is to dispel outdated religious based ideas about human nature that are ingrained in the folk beliefs of our modern culture **First-Century Christians in Twenty-First Century Africa** Nathan P. Devir, 2022-02-28 Millions of African Christians who consider themselves genealogical descendants of one of the Ten Lost Tribes of Israel in other words Jewish by ethnicity but Christian in terms of faith are increasingly choosing a religious affiliation that honors both of these identities Their choice Messianic Judaism Messianic adherents emulate the Christians of the first century observing the Jewish commandments while also affirming the salvational grace of Yeshua Jesus As the first
