Nelson (M.D.), Bradford W. Hesse, Robert T. Croyle, 2009 The demand for health information continues to increase but the ability of health professionals to provide it clearly remains variable The aim of this book is 1 to summarize and synthesize research on the selection and presentation of data pertinent to public health and 2 to provide practical suggestions based on this research summary and synthesis on how scientists and other public health practitioners can better communicate data to the public policy makers and the press in typical real world situations Because communication is complex and no one approach works for all audiences the authors emphasize how to communicate data better and in some instances contrast this with how to communicate data worse rather than attempting a cookbook approach The book contains a wealth of case studies and other examples to illustrate major points and actual situations whenever possible Key principles and recommendations are summarized at the end of each chapter This book will stimulate interest among public health practitioners scholars and students to more seriously consider ways they can understand and improve communication about data and other types of scientific information with the public policy makers and the press Improved data communication will increase the chances that evidence based scientific findings can play a greater role in improving the public's health **Global Climate Change** David Kitchen, 2023-09-29 Earth's climate is changing This book investigates the scientific environmental social political and economic aspects of climate change It enables students to reach an informed opinion and encourages active engagement in finding solutions It begins with a strong introduction to the scientific factors that drive natural and anthropogenic climate change and expands over three chapters to explore the impact

of greenhouse gases on the distribution of solar energy across land sea ice and air The author examines geologically ancient climates in order to highlight possible future scenarios and case studies from around the world highlight the impact of climate change on the physical and human environment The final chapters investigate how society can respond to the challenges of climate change and overcome the political social and economic factors that are barriers to progress focusing on the role of energy policy fiscal policy and risk assessment as a means to stimulate discussion about science society and the role of the media Science is the foundation of any solution but to turn this knowledge into action requires the application of a broad set of skills that are rooted in the liberal arts experience such as critical thinking analytical thinking problem solving and communication This textbook will be an essential resource for students taking courses in environmental geography climate change natural hazards climatology and meteorology Climate Change as Social Drama Philip Smith,Nicolas Howe,2015-05-05 Climate Change as Social Drama looks at the cultural sociology of climate change in public communication

From Martyrs to Murderers Robert L. Dahlgren,2017-04-13 In *From Martyrs to Murderers* the author explores the connections between the dark unflattering representations of public schools teachers and teaching in popular Hollywood films and the conservative attacks on public education that have culminated in a generation of neo liberal standards reform measures The author s analysis is based on a survey of 60 movies that feature significant interactions between public school teachers and their students This study employed a textual analysis method involving viewing the films alongside original script material which reveals that the narratives involving public schools during the late 20th century and early 21st century are distinct from those involving other types of schools or eras Rather than the romantic figures of earlier portraits such as Eve Arden s beloved Our Miss Brooks in the 1940s and 1950s radio and television serial these teachers are consistently portrayed as negative archetypes thus providing a rationale for the school reform agenda of the 1980s The sheer repetition of these damaging images in Hollywood products of the period made the American public more susceptible to the deceptive arguments outlined in *A Nation at Risk* the seminal 1983 report that provided the blueprint for the standards reform movement that has dominated education policy for the past generation This work thus develops upon the critical perspectives of educational historians and social studies educators who have probed this turning point in the history of American schooling It also offers an alternative means of viewing the reality of life in the nation s public institutions **The Creator's Code** Amy Wilkinson,2015-02-17 Based on in depth interviews with more than 200 leading entrepreneurs a lecturer at the Stanford Graduate School of Business identifies the six essential disciplines needed to transform your ideas into real world successes Each of us has the capacity to spot opportunities invent products and build businesses even 100 million businesses How do some people turn ideas into enterprises that endure Why do some people succeed when so many others fail The Creator s Code unlocks the six essential skills that turn small notions into big companies This landmark book is based on 200 interviews with today s leading entrepreneurs including the founders of LinkedIn Chipotle eBay Under Armour Tesla Motors

SpaceX Spanx Airbnb PayPal Jetblue Gilt Groupe Theranos and Dropbox Over the course of five years Amy Wilkinson conducted rigorous interviews and analyzed research across many different fields From the creators of the companies ranging from Yelp to Chobani to Zipcar she found that entrepreneurial success works in much the same way Creators are not born with an innate ability to conceive and build 100 million enterprises They work at it They all share fundamental skills that can be learned practiced and passed on The Creator s Code reveals six skills that make creators of all kinds of endeavors breakthrough These skills aren t rare gifts or slim chance talents Entrepreneurship Wilkinson demonstrates is accessible to everyone *Lessons After the Bell* Barney Martlew,2015-04-24 I wish I had learned some things earlier in life We all can make that statement The things will vary but the principle is the same The lessons learned would make our lives easier or better or different That is why I chose Muhammed Alis quote as the subtitle A man who views the world the same at fifty as he did at twenty has wasted thirty years of his life I do not wish for anyone to experience the difficulties associated with living a wasted life For every age group this book addresses that It is better to prosper to live with a sense of peace and joy and to be in a position where you are able to help others Regardless of your age the thoughts written in this book may help you in that way **Roger Ebert's Movie Yearbook 2007** Roger Ebert,2013-02-05 The most trusted film critic in America USA Today Roger Ebert actually likes movies It s a refreshing trait in a critic and not as prevalent as you d expect Mick LaSalle San Francisco Chronicle America s favorite movie critic assesses the year s films from Brokeback Mountain to Wallace and Gromit The Curse of the Were Rabbit Roger Ebert s Movie Yearbook 2007 is perfect for film aficionados the world over Roger Ebert s Movie Yearbook 2007 includes every review by Ebert written in the 30 months from January 2004 through June 2006 about 650 in all Also included in the Yearbook which is about 65 percent new every year are Interviews with newsmakers such as Philip Seymour Hoffman Terrence Howard Stephen Spielberg Ang Lee and Heath Ledger Nicolas Cage and more All the new questions and answers from his Questions for the Movie Answer Man columns Daily film festival coverage from Cannes Toronto Sundance and Telluride Essays on film issues and tributes to actors and directors who died during the year **Academic Listening Encounters: The Natural World Teacher's Manual** Yoneko Kanaoka,2009-03-23 A content based reading writing listening and speaking set that introduces students to topics in Earth science and biology
