China's foreign policies rationalization of China's overseas activities the overall Chinese worldview and China's vision of a Chinese world order It highlights how the country's outward expansion has been characterized mainly by spreading influence through non use of force and strategies of co operation and managed conflict under the umbrella of winning without fighting A set of Chinese geo strategic reasoning that addresses how the possession of capabilities in land power and sea power will interact to produce favorable balance of power corresponds to the country's pattern of overseas activities The book approaches the subject empirically based on original research into both writings for policy making purposes which indicate realistic assessments of world politics and of China's international capacity and also narratives for public consumption which have less emphasis on selfinterest and realpolitik The book concludes that Beijing's self privileging high morality might have the unfortunate consequence of reinforcing its own behavior which defies international order and which others disapprove of thereby increasing the likelihood of non armed and armed conflicts France and the New Imperialism Bruno
