Selected Water Resources Abstracts ,1986 [The Bet](#) Paul Sabin,2013-09-03 The Bet uses a legendary wager between the Stanford biologist Paul Ehrlich and the conservative University of Illinois economist Julian Simon to examine the roots of modern environmentalism and its relationship to broader political conflicts in the nation Ehrlich author of the landmark 1968 book The Population Bomb believed that rising populations would cause overconsumption scarcity and disastrous famines Simon countered that flexible markets technological change and human ingenuity would allow societies to adapt to changing circumstances and continue to improve human welfare In 1980 they made a much ballyhooed bet about the future prices of five metals that served as a proxy for their arguments about the future The Bet weaves intellectual biographies of Ehrlich and Simon into the history of late twentieth century environmental politics and other struggles of the era between liberals and conservatives Humanity s larger gamble on the future still remains unresolved By wrestling with the different sides of these arguments The Bet encourages a more nuanced approach to environmental problems one that acknowledges the limitations of both ecology and economics in guiding policy and that instead emphasizes the conflicting values that underlie political choices The Bet is structured around three bets first the 1000 bet that Ehrlich and two

colleagues made with Simon over the prices of chromium copper nickel tin and tungsten second the bet that the United States faced in the 1980 presidential election in choosing between Carter and Reagan and third the larger gamble that we as a society continue to make as we make choices Scientific and Technical Aerospace Reports ,1974 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database *Project Report* USAF School of Aerospace Medicine,1956 **U.S. Government Research Reports** ,1964 **Resources in Education** ,1994 **Indian Education Abstracts** ,1969 Transportation of Hazardous Materials United States.
