| One mole of anything is a very large number of things. It is difficult to understand just how large a mole is. This lab serves as a way to understand how truly large a mole of things is.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |               |            |
