- a. *Flashback*: alteration in story order in which the plot moves back in time to show events that have taken place earlier than those already shown.
- b. *Close-up*: a framing in which the scale of the object shown is relatively large. Most commonly, a person's head is seen from the neck up or an object fills most of the screen.
- c. *Depth of Field*: the area or field between the closest and farthest planes captured by the camera in which everything appears in sharp focus.
- d. *Establishing Shot*: a shot that shows the relationship among important figures, objects, characters, and setting at a distance. The film then cuts to more detailed shots that bring the audience closer to the characters.
- e. *Point of View (POV)*: a shot taken from the position of a character's eyes. It shows the viewer what things look like from the character's position.
- f. *Wide Angle*: the use of a wide-angle lens to create a shot that captures a wide range of elements.
- g. *Crosscutting*: editing that alternates shots of two or more lines of action occurring in different places. It is often used during dramatic sequences to increase tension.

II. Cast and Crew
