The Quest for Alpha Larry E. Swedroe, 2011-02-08 The final word on passive vs active investing The debate on active investing stock picking and market timing versus passive investing markets are highly efficient and almost impossible to outperform has raged for decades Which side is right In The Quest for Alpha The Holy Grail of Investing author Larry E Swedroe puts an end to the debate proving once and for all that active investing is likely to prove futile as the associated expenses costs fees and time spent analyzing individual stocks and the overall market are likely to exceed any benefits gained The book Presents research data and quotations that reveal it s extremely difficult to outperform the market Explains why investors should focus on asset allocation fund construction costs tax efficiency and the building of a globally diversified portfolio that minimizes if not eliminates the taking of idiosyncratic uncompensated risks Other titles by Swedroe The Only Guide to Alternative Investments You ll Ever Need and The Only Guide You ll Ever Need for the Right Financial Plan Investors are on a never ending search for a money manager who will deliver returns above the appropriate risk adjusted benchmark aka the Holy Grail of Investing The Quest for Alpha demonstrates that it s a loser s game while it s possible to win it s so unlikely that you shouldn t try **The Winning Investment Habits of Warren Buffett & George Soros** Mark Tier, 2013-09-17 Warren Buffett Carl Icahn and George Soros all started with nothing and made billion dollar fortunes solely by investing But their investment strategies are so widely divergent what could they possibly have in common As Mark Tier demonstrates in this insightful book the secrets that made Buffet Icahn and Soros the world s three richest investors are the same mental habits and strategies they all practice religiously However these are mental habits and strategies that fly in the face of Wall Street s conventional mindset For example Buffett Icahn and Soros do not diversify When they buy they buy as much as they can They re not focused on the profits they expect to make Going in they re not investing for the money at all They don t believe that big profits involve big risks In fact they re far more focused on not losing money than making it Wall Street research reports They never read them They re not interested in what other people think Indeed Buffett says he only reads analyst reports when he needs a laugh In The Winning Investment Habits of Warren Buffett George Soros you can discover how the mental habits that guided your last investment decision stack up against those of Buffett Icahn and Soros Then learn exactly how you can apply the wealth building secrets of the world s richest investors to transform your own investment results
