For emerging market and developing economies (EMDEs), the ability to boost job creation and reduce extreme poverty has declined. Key downside risks include a further escalation of trade barriers and continued policy uncertainty. These challenges are exacerbated by subdued foreign direct investment into EMDEs. Global cooperation is needed to restore a more stable international trade environment and scale up support for vulnerable countries grappling with conflict, debt burdens and climate change. Domestic policy action is also critical to contain inflation risks and strengthen fiscal resilience. To accelerate job creation and long term growth, structural reforms must focus on raising institutional quality, attracting private investment and strengthening human capital and labor markets. Countries in fragile and conflict situations face daunting development challenges that will require tailored domestic policy reforms and well coordinated multilateral support. *HC 97 - Private Finance 2* Great Britain: Parliament: House of Commons: Treasury Committee,2014-06-09 Written evidence is contained in Volume 2 available on the Committee website at www.parliament.uk/treascom
