Davidson Frame, 2012-10-15 The economic crisis of 2008 2009 was a transformational event it demonstrated that smart people aren't as smart as they and the public think The crisis arose because a lot of highly educated people in high impact positions political power brokers business leaders and large segments of the general public made a lot of bad decisions despite unprecedented access to data highly sophisticated decision support systems methodological advances in the decision sciences and guidance from highly experienced experts
