

Cybersecurity trends to watch out for 2023

Global Trend Cybersecurity

**Alawida, Moatsum,Almomani,
Ammar,Alauthman, Mohammad**

Global Trend Cybersecurity:

Cyber Security 2025 Trends Mark Hayward, 2025-04-23 Advanced Persistent Threats APTs are complex sophisticated cyber threats that infiltrate networks with the specific aim of stealing data or compromising sensitive information over an extended period Unlike traditional cyber attacks which are generally opportunistic and hit and run in nature APTs are characterized by their calculated approach and sustained efforts Attackers behind APTs often take immense time to plan their infiltration using a combination of social engineering malware and zero day exploits to gain access to target environments Once inside they maintain a presence undetected for weeks months or even years establishing themselves in the victim's network to carry out their objectives while remaining hidden from standard security measures **Current**

Trends in the Global Economy. From the Perspective of Japanese and Polish Economists Bogusława

Drelich-Skulska, Mami Hiraike Okawara, 2021-09-09 The monograph is our latest publication created thanks to the scientific cooperation between Polish and Japanese researchers from the Department of International Business at the Wrocław University of Economics and Business and Takasaki City University of Economics The results of their research provide an overview of selected trends and challenges present in the global economy As a mosaic of diverse research subjects this book is dedicated to readers who look for multidimensional insights into the modern trends and phenomena occurring in the global economy This monograph is recommended to students of economics who want to acquire knowledge about the selected tendencies and researchers who would like to broaden their knowledge in the area of current trends in the globalized world economy as well as entrepreneurs and business practitioners seeking information about the cultural aspects of the global economic phenomena **Transforming Tomorrow: Innovative Solutions and Global Trends in Electrical and**

Cybersecurity Culture Gulsebnem Bishop, 2025-04-29 The culture of cybersecurity is a complex subject We can look at cybersecurity culture from different perspectives We can look at it from the organizational point of view or from within the culture Each organization has a culture Attitudes toward security have different manifestations in each organizational culture We also see how the cybersecurity phenomenon unfolds in other cultures is complicated Each culture reacts differently to this phenomenon This book will emphasize both aspects of cybersecurity From the organizational point of view this book will emphasize the importance of the culture of cybersecurity in organizations what it is and how it can be achieved This includes the human aspects of security approach and awareness

and how we can design systems that promote the culture of security It is also important to emphasize the psychological aspects briefly because it is a big part of the human approach From a cultural point of view this book will emphasize how different cultures approach the culture of cybersecurity The cultural complexity of cybersecurity will be noted by giving examples from different cultures How leadership in different cultures approach security and how different cultures approach change Case studies from each culture will be presented to demonstrate different approaches to implementing security and training practices Overall the textbook will be a good resource for cybersecurity students who want to understand how cultures and organizations within those cultures approach security It will also provide a good resource for instructors who would like to develop courses on cybersecurity culture Finally this book will be an introductory resource for anyone interested in cybersecurity s organizational or cultural aspects

India's Cybersecurity Policy Thangjam K.

Singh,2024-06-07 This book examines India s public policies on cybersecurity and their evolution over the past few decades It shows how threats and vulnerabilities in the domain have forced nation states to introduce new policies to protect digital ecosystems It charts the process of securitisation of cyberspace by the international system from the end of the 20th century to the present day It also explores how the domain has become of strategic interest for many states and the international bodies which eventually developed norms and policies to secure the domain Consequently the book discusses the evolution of cybersecurity policy at global level by great powers middle powers and states of concern and compares them with the Indian context It also highlights the requirement of introducing improving new cybersecurity guidelines to efficiently deal with emerging technologies such as 5G Artificial Intelligence AI Big Data BD Blockchain Internet of Things IoT and cryptocurrency The book will be of great interest to scholars and researchers of cybersecurity public policy politics and South Asian studies

Cybersecurity Capabilities in Developing Nations and Its Impact on Global Security Dawson,

Maurice,Tabona, Oteng,Maupong, Thabiso,2022-02-04 Developing nations have seen many technological advances in the last decade Although beneficial and progressive they can lead to unsafe mobile devices system networks and internet of things IoT devices causing security vulnerabilities that can have ripple effects throughout society While researchers attempt to find solutions improper implementation and negative uses of technology continue to create new security threats to users Cybersecurity Capabilities in Developing Nations and Its Impact on Global Security brings together research based chapters and case studies on systems security techniques and current methods to identify and overcome technological vulnerabilities emphasizing security issues in developing nations Focusing on topics such as data privacy and security issues this book is an essential reference source for researchers university academics computing professionals and upper level students in developing countries interested in the techniques laws and training initiatives currently being implemented and adapted for secure computing
