Schenk, Roger N. Clark, Carly J. A. Howett, Anne J. Verbiscer, J. Hunter Waite, 2018-11-27 With active geysers coating its surface with dazzlingly bright ice crystals Saturn's large moon Enceladus is one of the most enigmatic worlds in our solar system Underlying this activity are numerous further discoveries by the Cassini spacecraft tantalizing us with evidence that Enceladus harbors a subsurface ocean of liquid water Enceladus is thus newly realized as a forefront candidate among potentially habitable ocean worlds in our own solar system although it is only one of a family of icy moons orbiting the giant ringed planet each with its own story As a new volume in the Space Science Series Enceladus and the Icy Moons of Saturn brings together nearly eighty of the world's top experts writing more than twenty chapters to set the foundation for what we currently understand while building the framework for the highest priority questions to be addressed through ongoing spacecraft exploration Topics include the physics and processes driving the geologic and geophysical phenomena of icy worlds including but not limited to ring moon interactions interior melting due to tidal heating ejection and reaccretion of vapor and particulates ice tectonics and cryovolcanism By contextualizing each topic within the profusion of puzzles beckoning from among Saturn's many dozen moons Enceladus and the Icy Moons of Saturn synthesizes planetary processes on a broad scale to inform and propel both seasoned researchers and students toward achieving new advances in the coming decade and beyond [Future Spacecraft Propulsion Systems and Integration](#) Paul A. Czysz, Claudio Bruno, Bernd Chudoba, 2017-08-30 The updated and expanded third edition of this book focuses on the multi disciplinary coupling between flight vehicle hardware alternatives and enabling propulsion systems It discusses how to match near term and far term aerospace vehicles to missions and provides a comprehensive overview of the subject directly contributing to the next generation space infrastructure from space tourism to space exploration This holistic treatment defines a mission portfolio addressing near term to long term space transportation needs covering sub orbital orbital and escape flight profiles In this context a vehicle configuration classification is introduced covering alternatives starting from the dawn of space access A

best practice parametric sizing approach is introduced to correctly design the flight vehicle for the mission This technique balances required mission with the available vehicle solution space and is an essential capability sought after by technology forecasters and strategic planners alike

Japan In Space Brian Harvey, 2023-11-16 Guided by genius engineer Hideo Itokawa Japan's space program began with small scientific satellites more than 50 years ago Since then its space probes have travelled to the Moon Venus the asteroids and even a comet The country launched weather satellites to warn of typhoons communications satellites to connect the Japanese archipelago and remote sensing technology to observe the Earth and warn of climate change Engineering technology satellites became the basis of Japan's electronic industry as Japanese astronauts flew into space working on their Kibo module on the International Space Station Now Japan is one of Asia's leading space powers alongside China and India vying for influence in the region Its solid and liquid fueled rockets are estimated to be among the most advanced and reliable in the world its technology among the best This book

examines the history of Japan's space program the country's current state of development and its future It describes the extensive infrastructure that has gone into the forging of Japan's picturesque oceanside launch sites training centers testing facilities and tracking stations This book also outlines the politics of space in Japan financial difficulties its space industry the symbiotic relationship with the United States and the recent sharp change of course to invest in military satellites From the role of influential personalities such as Hideo Shima and Shinichi Nakasuka to political leaders such as Yasuhiro Nakasone and Takeo Kawamura you will read about how Japan has paved its own star lit path to space The future may expect to send Japanese probes to Mercury and the moons of Mars all while the first Japanese astronauts set foot on our own Moon and drive innovative rovers across its surface Asteroids IV Patrick Michel, Francesca E. DeMeo, William F. Bottke, 2015-12-31

More than forty chapters detail our current astronomical compositional geological and geophysical knowledge of asteroids as well as their unique physical processes and interrelationships with comets and meteorites Provided by publisher

Volcanism and Tectonism Across the Inner Solar System T. Platz, M. Massironi, P.K. Byrne, H. Hiesinger, 2015-01-05
Volcanism and tectonism are the dominant endogenic means by which planetary surfaces change This book aims to encompass the broad range in character of volcanism tectonism faulting and associated interactions observed on planetary bodies across the inner solar system a region that includes Mercury Venus Earth the Moon Mars and asteroids The diversity and breadth of landforms produced by volcanic and tectonic processes is enormous and varies across the inner solar system bodies As a result the selection of prevailing landforms and their underlying formational processes that are described and highlighted in this volume are but a primer to the expansive field of planetary volcanism and tectonism This Special Publication features 22 research articles about volcanic and tectonic processes manifest across the inner solar system

Asteroids Viorel Badescu, 2013-07-03 The Earth has limited material and energy resources while these resources in space are virtually unlimited Further development of humanity will require going beyond our planet and exploring of extraterrestrial resources and sources of unlimited power Thus far all missions to asteroids have been motivated by scientific exploration However given recent advancements in various space technologies mining asteroids for resources is becoming ever more feasible A significant portion of asteroids value is derived from their location the required resources do not need to be lifted at a great expense from the surface of the Earth Resources derived from Asteroid not only can be brought back to Earth but could also be used to sustain human exploration of space and permanent settlements in space This book investigates asteroids prospective energy and material resources It is a collection of topics related to asteroid exploration and utilization It presents past and future technologies and solutions to old problems that could become reality in our life time The book therefore is a great source of condensed information for specialists involved in current and impending asteroid related activities and a good starting point for space researchers inventors technologists and potential investors Written for researchers engineers and businessmen interested in asteroids exploration and exploitation Keywords Asteroids Asteroid

Robotic Exploration of the Solar System Paolo Ulivi, David M. Harland, 2012-08-14 Paolo Ulivi and David Harland provide in *Robotic Exploration of the Solar System* a detailed history of unmanned missions of exploration of our Solar System. The subject is treated from an engineering and scientific standpoint. Technical descriptions of the spacecraft of their mission designs and of instrumentations are provided. Scientific results are discussed in considerable depth together with details of mission management. The project will deliver four volumes totaling over 2 000 pages that will provide comprehensive coverage of the topic with thousands of references to the professional literature that should make it the first port of call for people seeking information on the topic. The books will cover missions from the 1950s until the present day and some of the latest missions and their results will appear in a popular science book for the first time.
